This calculator converts the correct answers (from 40) into an approximate band score (out of 9). This will help you find out what would your team score according to the sample test. This calculator is based on a new scoring system introduced in July 2007 using half and the entire score group. Group approximate score information: The raw score required to hit a certain group score in Listening and Reading will vary slightly from exam to exam. Each exam is rated by Cambridge as being at a certain level of difficulty and this will be the determining factor on the raw score requirements. At IELTS, I want to help take you to the next level. We want to make sure you don't have to repeat the English test. That's why we share with you how we test, how we celebrate your work, and what's important. For IELTS Writing, Speaking, Reading and Listening, we'll tell you what the examiners are looking for and how your test is marked. We'll also show you how your overall group score is calculated.
