While this may be familiar to some of you, for those not familiar with it, Pokemon Fire Red is an extended remake of the 1996 game, Pokemon Red. The game was developed by Game Freak and published by Nintendo and The Pokemon Company. It's compatible with the Game Boy Advance console. Pokemon Fire Red belongs to the third generation of Pokemon video games, along with Pokemon Emerald, Ruby, Sapphire and Leaf Green. It received positive reviews from critics after its release and sold a total of 12 million copies worldwide, making it a real commercial hit.
