Pros: Sporty and stylish exterior design Spacious and comfortable interior Second row seats can be folded to expand the luggage Of Advanced Engine Technology and Honda's latest innovation Full Safety Features Cons: Still use the same Ground clearance engine low Honda Jazz Latest Generation Get Small Facelift Honda Jazz is one of the most popular and best-selling compact hatch cars in Indonesia. The last generation honda Jazz was released in July 2017. PT Honda Prospect Motor announced the new Honda Jazz in Jakarta on July 26, 2017, which was attended by PT HPM President Takehiro Watanabe. This is a minor model of the third generation Honda Jazz facelift. Honda Jazz itself has been paving the way in Indonesia since 2003 and has undergone a number of changes. The new Honda Jazz 2017, which was launched in mid-2017, is a Honda Jazz Facelift edition with minor modifications. The Honda Jazz itself has been slipping since 2013. The new Honda Jazz consists of two variants: the New Honda Jazz and the New Honda Jazz RS, consisting of a model of manual transmission m/t and automatic transmission CVT. Thus, there are variants of the new Honda Jazz M/T, the new Honda Jazz CVT, the new Honda Jazz RS M/T, and the new Honda Jazz CVT. The second performance was similar, but the Honda Jazz RS had a more sporty and dashing look. The latest generation of Honda Jazz is available in 7 colors, namely Crystal Black Pearl, Lunar Silver Metallic, White Orchid Pearl, Modern Steel Metallic, Rallye Red, Carnival Yellow and Phoenix Orange Pearl Two Tone. The 2017 Honda Jazz facelift is covered by some minor changes, starting with the exterior, interior, some other new features. Interestingly, the PT HPM eliminated the Honda Jazz Type S, but instead introduced a standard Honda Jazz no-frills name on the back. The new Honda Jazz RS receives external changes in the form of a new grille and front bumper design, LED headlight with DRL (Daytime Running Light), black retractable ddr mirror or rear-view mirror, 16-inch alloy wheels, rear bumper diffuser and side skirt with added weight. Honda also added a selection of Phoenix Orange Black Top colors in the form of a combination of orange and black roof, which looked dashing and sporty. The Honda Jazz RS padding also has orange seam accents, a steering wheel, a console box, and a shift handle. In addition, the new Honda Jazz also features a new head unit equipped with an 8-inch touchscreen display loaded with features such as Bluetooth audio, audio mirror image, and phone calls. The new Honda Jazz RS also has a dashboard equipped with Smart Touch Auto AB with digital panels. Despite the facelift, the new Honda Jazz still uses the same and the insides, like the third generation Honda Jazz. Hatchback Hatchback It still has a 1.5 litre SOHC o-VTEC 4-cylinder engine, Capable of spewing 120 hp of power at 6600 rpm. Its peak torque reaches 14.8 kg with 4,600 rpm. Honda Jazz 2017 price includes competing for entry-level hatchback cars. Honda Jazz M/T, which became the lowest option on the market Rp239,000,000. Honda Jazz CVT sold Rp249,000,000, Honda Jazz RS M/T sold at Rp269,500,000, and its highest version of Honda Jazz RS CVT was sold with a banderol Rp279,500,000. The most expensive options, of course, offer cooler design as well as more complete features such as Full LED Farda with DRL LED, One Push Ignition System, Paddle Shift, Cruise Control, and Auto A/C with Smart Touch. The 2017 Honda Jazz New Honda Jazz has a 1.5-liter in line-cylinder SOHC engine, 16 i-VTEC and DBW valves with PGM-FI fuel injection capable of providing powerful and responsive engine performance. The Honda Jazz engine is capable of producing a maximum power of 88 kW or 120 hp at 6600 rpm, while the maximum torque touches 14.8 kg or 145 nm at 4800 rpm. The new Honda Jazz 2017 relies on 5-speed support for the manual transmission system and a 5-speed CVT automatic transmission with Earth Dream Technology technology. With this technology, transmission becomes smoother, performance is cleaner and more efficient. There is also a paddle shear function that allows the user to adjust the shift of the transfer with the tip of the finger (a type of Jazz RS). The Honda Jazz TS also has cruise control for constant speed control that can be adjusted from speeding and slowing down the button directly from the steering wheel. The Honda Jazz 2017 features as pretty complete as an entry-level hatchback. The Honda Jazz is equipped with full safety features, starting the secure frame structure of the G-CON and ACE. Side Impact Beam and Pedestrian Protection. The Honda Jazz also has dual SRS front airbags, a seatbelt controller, and a 3P ELR seat belt support with Pretensioner with a load limiter. The car is also equipped with Brake Override System technology in the form of smart braking to determine braking priorities while trampling the gas pedal and brakes, so that the car is not in advance. Not only that, the Honda Jazz RS also features entertainment features in the form of an 8-inch floating touchscreen display audio display with an 8-inch touchscreen audio system compatible with various AM/FM radio, MP3/WMA, Bluetooth, HDMI port, smartphone connection, AUX input and USB port. While the standard Honda Jazz features a 6.2-inch touchscreen audio head unit. Honda Jazz competitor Honda Jazz is known as the king of hatchbacks in Indonesia today. However Honda Jazz had to face a number of competitors in the market. For a dozen years, Honda Jazz has not had a significant competitor. However, several other hatchbacks are competitors of Honda Jazz, such as Kia Rio, Toyota Yaris, Mazda2 and Nissan March. Kia Rio has a market of rp250 million for manual models and Rp260 million for automatic models equipped with Sunroof features that Honda Jazz does not have. Similarly, the Mazda2 features advanced European features in the style of multimedia-driven central council cars. The Mazda2 multimedia also supports navigation and voice recognition. Not to mention other advanced features such as head-up display, active blind spot monitoring and smart brake support. On the other hand Toyota Yaris is equipped with a more advanced multimedia with an audio head unit that can be launched with an air gesture function and can be connected to the Internet. Nissan March in Indonesia also has an intelligent entry function, start/stop button, and automatic digital air conditioning. However, the Toyota yaris is called the main driver of the Honda Jazz. Honda Jazz itself has more than 15 years of paving in Indonesia and more than 306,446 units have been sold on the market, while the new Toyota Yaris sold 185,412 units. The exterior of the 2017 Honda Jazz New Honda Jazz has a stylish and sporty design. The latest generation of Honda Jazz is also associated with attractive and modern performances that attract many users from a young age. The Honda Jazz look at the front also looks fresher and more stylish, while the Honda Jazz RS looks more sporty. The side profile also has a solid running forming shoulder line that extends to the stern, unfortunately the back looks a little convesimal with very vertical stern. The design also looks more practical with an action-packed look of light accents. The Honda Jazz RS has the most sporty look with the RS logo on the front and sports design of the front bumper. This hatch was also equipped with a full LED headlight with a DRL LED that looks action-packed and is capable of increasing the rider's visibility. The new black power of the Miior retractable door or the modern rearview mirror, which adds to the sporty feel of this car. The Jazz RS is also covered with large wheels and rear spoilers. The new Honda Jazz is also getting sporty with the new Black Top roof for the Phoenix Orange Pearl HOSPITAL option. The sporty experience is even more remarkable with the presence of a dynamic side skirt, rear bumper with diffuser, black front radiator and sporty front bumper. Honda Jazz still relying on halogen headlights. But both were fitted with fog lights that can increase the visibility of driving on foggy roads. In addition, the standard Honda Jazz uses a 15-inch alloy ring, while the Jazz RS type has 16-inch wheels. The size of the bus is also different, the standard type 175/65 R15 and jazz RS 185/55 R16. Note that the usual Honda Jazz and Honda Jazz RS have a slightly different size. The standard Honda Jazz has dimensions of 3,955 mm x 1694 mm x 1524 mm (p x l x t), with a wheel axis distance of 2530 mm, as well as a 1492 mm and 1401 mm front/rear support. While the Honda Jazz RS is slightly larger with dimensions measuring 4035 mm x 1694 mm x 1524 mm (p x l x t), with wheel axis distance 2530 and front/rear distance 1476 / 1466 mm. Both use the front suspension MacPherson Strut and the rear suspension H-Shape Torsion Beam, Beam, Beam making it soft enough to cross perforated roads. The interior of the Honda Jazz Honda Jazz is equipped with a modern interior that looks airy and futuristic. This hatchback is capable of carrying up to 5 passengers with a comfortable seat. Honda Jazz has a spacious interior like the MPV, while it's a hatchback. Second row seats can also be folded to accommodate more items. Honda Jazz's own trunk has a capacity of 363 liters. Meanwhile, the consiol glove box and other storage are not so great. The Honda Jazz used to have a simpler interior compared to the Honda Jazz RS. The Honda Jazz RS relies exclusively on a 6.2-inch audio touchscreen, ECO Assist, and manual air conditioning settings. However, the Honda Jazz RS has a rather comfortable and loaded interior feature. For example, an 8-inch touchscreen display that can be connected to a smartphone and supported by Bluetooth. The highest version of the Honda Jazz was also equipped with cruise control and steering features for driving comfort. The One Push Ignition System feature in the Honda Jazz RS interir allows the driver to turn the engine on and off at the touch of a finger. Essentially this feature is the engine start/stop button. Paddle Shift is also for easy transmission system transmission with one touch (type RS). The interior of Honda Jazz is made of quality materials and the best materials. The dashboard and hatch cabin are predominantly elegant black. Honda Jazz is equipped with a light speedometer with sports meter panels. Also, Multi Information LED Displat with Eco-Assist can provide real-time information about fuel consumption with colored indicators. The RS type is also equipped with Smart Touch Auto AC for the comfort of the rider. Honda Jazz Honda Brio color options have quite a few color options. Like the standard Honda Jazz, which carries crystal black pearl colors, Lunar Silver Metallic, Oerchid Pearl, Modern Steel Metallic, Rally Red, Carnival Yellow, dan Phoenix Orange Pearl Two tones untuk tipe RS. RS. harga honda jazz rs manual 2020
