Please find the following various resources and materials for The Law of The 12th Class. In particular, the Criminal Law Division. Class One: SCO: Students will be able to identify crime, understand the 4 conditions necessary for the act to be considered a crime, understand the principle of the presumption of innocence. We have considered the introduction of criminal law with a specific focus on the nature of crime and the definition of crime and criminal justice. Documents include: 1. Criminal Law Introduction Slides2. Nature of Criminal Activity: This should be submitted for classification. Grade 2 and 3: SCO: Students will be able to identify mens rea and actus reus; apply the principles of mens rea and actus reus; List the participants of the crime; Understand the role of different perpetrators understand the principle of responsibility, in particular strict responsibility and absolute responsibility; and understand incomplete crimes. In this class we looked specifically at the concepts of actus re-offending (guilty act) and mens Rea (guilty mind). In addition, we looked at who was involved in the crime. This spreads past just the perpetrator, meaning we have looked at the various roles and charges that could have been brought after the crime (related to their participation in the crime, not the act itself). Documents include: 1. Elements of Crime Slides2. Elements of the Notes3 crime presentation. Elements of the crime sheet are one: This must be submitted for classification after completion. 4. Elements of Criminal Activity 2: This must be taken after completion and can be done individually, by couples, or in groups of no more than four. In order to continue to use our website, we ask you to confirm your identity as a person. Thank you so much for your cooperation. 7, 8, 9, 10, 11, 12
