Combine and combine multiple Word files (DOCX, DOC) into a single PDF, DOCX, or HTML document that makes it easier to send, share, print, and revise. Aspose Words provides a wide range of document processing features with a particular focus on Microsoft Word and OpenOffice documents. Using Document Merger, you can combine multiple files (DOCX, DOC, DOTX, DOT, RTF, ODT, OTT, TXT, HTML) with high quality and high speed, even if you have complex formatting, and instantly download the result in a variety of formats including DOCX, PDF, HTML, EPUB, PNG and JPG. All our online apps are reliable, safe, easy to use and completely free. In case you're interested in developing professional document-focused software solutions, take a look at our flexible, ready-to-work ASpose Words Cloud API with a powerful set of open source interfaces for different programming languages. Select and download up to 10 files of documents for merger. Repeat the previous step if you need to add more files to the merger list. Adjust the merging of the list with the green arrows. Click MERGE when you're ready to combine document files. Download the result to your device or instantly browse the web in your browser. You have the option to send an email with a link to the download. You can do this by either clicking inside the drop area or dragging with your mouse. Multiple files can be downloaded at once. Download the documents and click on the MERGE NOW button. It will combine your documents files into one and provide you with a link to download the combined document. The output format will be the output format of your first document. It works from all platforms including Windows, Mac, Android and iOS. All files are processed on our servers. No plug-in or installation software is needed for you. Works for Aspose.Words. All files are processed using the Aspose API, which is used by many Fortune 100 companies in 114 countries. Combine and combine multiple DOCX files into a single PDF, DOCX, or HTML document that is easier to send, share, print, and revise. Aspose Words provides a wide range of document processing features with a particular focus on Microsoft Word and OpenOffice documents. Using Document Merger, you can combine multiple DOCX files with high-quality and high-speed, even if you have complex formatting, and instantly download results in a variety of formats, including DOCX, PDF, HTML, EPUB, PNG, and JPG. All our online apps are reliable, safe, easy to use and completely free. In case you are interested in developing professional software solutions, look at our flexible, ready-to-work API Aspose Words Cloud with a powerful set of open source interfaces for different programming languages. Select and download up to 10 DOCX files in Repeat the previous step if you need to add more files to the merger list. Adjust the merging of the list with the green arrows. Click ON THE MERGE when you're ready to combine DOCX files. Download the result to your device or instantly browse the web in your browser. You have the option to send an email with a link to the download. You can do this by either clicking inside the drop area or dragging with your mouse. Multiple files can be downloaded at once. More than 18 million users access our platform on a monthly basis to combine, share, and convert their documents, thanks to our security protocols and quick processing. All file transfers use SSL connections, and

we remove all files from our servers after an hour of processing. Quality wise, we also adopt OCR technology to make sure that your file formats are stored in revised documents, even if you are trying to convert and combine the words of the documents that are scanned. There should be little change from the original document. Best of all, we are also free to use, up to twice an hour, for all your document management needs. Finally, as an online platform, you can use Smallpdf to merge word files on any OS and browser such as Mac, Windows and Linux. What else can Smallpdf do? We have a complete set of 16 other tools to help you convert and combine many types of documents, from Word and PDF to PPT, Excel and JPG. Just use the same logic as the instructions above to combine your documents. We also have enhancement tools to help you divide, rotate and cut pages that are all available on our homepage for you to use. Combining Word files couldn't be easier, whether you decide to do it online or offline, through Microsoft Word or Smallpdf. The same goes for mobile devices, where we are also fully compatible. If you often merge files, check out our Pro subscriptions, which provide unlimited computing power tools to Smallpdf, at the expense of coffee every month. We strive to make the process of processing digital documents seamless, efficient and free. Any reviews, suggestions or questions we only emailed away! We need to work often with Word documents, and sometimes we can get confused when we want to combine multiple Word documents into one main document. When the amount of content is not large, we can directly copy and paste it. However, if you process a large number of documents or complex formats. What do we do? At the moment we choose the best platform or program to merge documents. Some of the programs or platforms we find on the Internet will change the original format of the document when documents are merged and do not merge high-quality documents. Now we'll tell you some techniques on how to combine Word documents into one on step by step. We will recommend not only online, but also offline tools. 1. Merging Word Offline documents with Microsoft Word Microsoft Word is a popular program worldwide. With this software, we can write and edit easily. It can also help you with spelling, grammar, and even stylistic writing suggestions. With tools at hand, it's easy to go from pen and paper to digital ink and edit intuitively. Many people don't know that Microsoft Word has a built-in feature for Document Mergers. This can help you combine multiple documents into one document and save the original format. Now I'll tell you how to combine Word documents step by step. Step 1. Open Microsoft Word software. Step 2. Select the Insert tab, located next to the top left corner of the Microsoft Word interface. Step 3. Click on the Object icon, which is in the main Microsoft Word toolbar, and then click the Text button from the file... Button. Step 4. You can then select files that will be merged into the current document. To select multiple documents, press and hold the Ctrl tab. Step 5. Then you can get a new Word document by clicking on the file button to save both. 1. Merging Word Offline documents with Microsoft Word DocSoSo is a free online document converter. You don't need to install software and plug-ins; You can easily convert and work PDF. All tools are completely free. It helps people work smarter with documents. DocSoSo delivers convenient and useful applications such as image converter, word sharing and fusion, Excel To Word, Word To Image, Excel To Image, Word Watermarks, Word and so on. Step 1. Go to the DocSoSo website. Click the Word conversion button to start the job. Step 2. Click select files to select the Word document you want to combine. You can select multiple files at the same time. When you're done, click the Word Merging button. Step 3. Click the Download file button to download the combined file or open the file directly by clicking on the Open File. 3. Combine word documents with Aspose Aspose is a free online platform for Microsoft Word and OpenOffice documents. With this tool, you can convert, view, edit, watermark, compare, sign, combine, or share documents.
