Since the end of apartheid, South Africa has undertaken significant economic reforms to attract more foreign direct investment, but it has been slow. At the same time, South African firms have become major players in sub-Saharan Africa and beyond. Taken together, these investment decisions could have a significant long-term impact on economic growth and political stability in southern Africa. Southern African policy makers need to decide what they want from the private sector and how to achieve it. Related topics: Newsletter Promo Summary and excerpts from recent books, special offers, and more from the Harvard Business Press Review. Wine, beaches, mountaintop dining, nature reserves and safari are some of the things that come to mind when you think of South Africa. Located on the southernmost point of the African continent, South Africa is a country with so much to do and see. The country is served by two major airports at O.R. Tambo International in Johannesburg (JNB) and Cape Town International (CPT). For American travelers, nonstop flights fly to Johannesburg. For those of you who are unable to find nonstop or looking to fly to Cape Town, you will probably route through Europe or another African airport from United States. Best programs to use in the FlightEven book, although South Africa is far from the US, you still have several flight options at both airports. Oneworld, SkyTeam and Star Alliance partners offer flights between the U.S. and South Africa - good news for those of us who have flexibility in our travel plans. As you read this article, reward pricing is shown back and forth. For those of you in flight options in one way, you want to avoid ANA and Korean Air as both of these require you to book round-trip flights. What's behind us, let's figure out how best to fly between the U.S. and South Africa! Air Canada Aeroplan Redeem Aeroplan miles fly SWISS Air Lines. Image Credit: SWISS Air LinesCabin ClassStar Alliance Miles CostTaxes and FeesEconomy100,000 \$56-First210,000 \$1,585Starting from our list of award programs that can be used to book premium flights to South Africa is Aeroplan. The program is best known for its awards for flights between the United States and Europe. What you may not have considered using Aeroplan to fly to South Africa. The main drawback with Aeroplan is that fuel surcharges are transferred. This means that airlines like Lufthansa require you to pay significant taxes and fees on reward flights. Hot tip: Singapore business and first class and SWISS first class flights can only be booked with airline miles in their respective rewards programs. With the required number of Aeroplan miles in your account, here are a few examples of flights which you can book with Aeroplan Miles: Washington, D.C. (IAD) - Accra (ACC) - Johannesburg (JNB) for 100,000 miles Aeroplan in South African economy classChicago (ORD) - Zurich (ARH) - Johannesburg (JNB) for 150,000 miles Aeroplan in SWISS business class :Search for flight award on United.Confirm the same flight award on The United. Paying taxes and fees. Earnings Aeroplan MilesAeroplan has partnered with 3 transfer current programs, making it easy to earn Aeroplan Miles with American Express, Capital One, and Marriott Bonvoy. In addition to these partnerships, Aeroplan has a co-branded credit card, TD Aeroplan™ Visa Signature® Credit Card, which earns the airline a mile directly with your credit card spend. For those of you who want to use re-taken scores, American Express points to a 1:1 transmission, Capital One Miles at a ratio of 2:1.5, and Marriott points transfers take 5 days at a ratio of 3:1. With each 60,000 Marriott points you carry, you'll get a 5,000-mile bonus. If you want to earn Capital One Miles, here are the credit cards that we recommend you check out: Recommended Capital One Card (Personal) Capital One® Venture® Rewards Credit Card - This card is packed with a lot more benefits and perks. Earn 100,000 bonus miles when you spend \$20,000 on purchases in the first 12 months since opening an account, or still earn a 50,000 mile sign up bonus once you spend \$3,000 on purchases within 3 months of opening an account. We recommend this as a non-head card if you even semi-regularly stay in hotels. Capital One® VentureOne® Rewards Credit Card - This card for those who want to earn 1.25x miles for \$1 for each purchase. With a 20,000 mile sign up bonus (worth \$200 to travel) by spending \$1,000 to 1,000 the first 3 months and without an annual fee, it's a strong choice. Alaska Airlines Mileage PlanAlaska Airlines are great to use for Cathay Pacific business class flights. Image Credit: Greg StoneCabin ClassCathay Pacific Miles CostTaxes and South Africa's \$488Business125,000 \$488-First140,000 \$488Long Fan Favorite in Miles and Points of the World, Alaska Airlines Mileage Plan is a program that offers value for flights between the U.S. and South Africa. Alaska Airlines is known for booking a stop not only on its flights, but also on partner airlines. Outside of Alaska Airlines miles time is hard to earn, the 2 drawbacks with this particular foreclosure is that you have to call Alaska Airlines to book a flight and Alaska Airlines can't see the same reward place that you could find on American Airlines, British Airways, Japan Airlines, and qantas. Hot Tip: Check out American Airlines, British Airways, and qantas search engines as you'll need them to search cathay Pacific award flights. We've covered this in our oneworld accessibility guide. If you have enough Alaska Airlines miles, to book a cathay Pacific award-winning flight, given flights on one of these examples of itineraries: Los Angeles (LAX) - Hong Kong (HKG) - Johannesburg (JNB) for 125,000 miles of Alaska in Cathay Pacific Business Class New York (JFK) - Hong Kong (HKG) - Johannesburg (JNB) for 140,000 miles of Alaska's Cathay Pacific First ClassAfter these steps below, help with your flight : Search for flights on American Airlines, British Airways, and qantas. Call Alaska Airlines at 800-252-7522 to confirm the existence of the award. Book a flight by phone. Paying taxes and fees, including a \$12.50 partner airline reward fee. Earnings Alaska Airlines MilesIt is difficult to earn Alaska Airlines miles because the program has only 1 transfer point partnership program with Marriott Bonvoy and its co-branded card, Alaska Airlines Visa Signature® credit card, does not come with big welcome offers. If you have Marriott points, the transfer to Alaska Airlines takes 4 days at a ratio of 3:1. In addition, you will receive a 5,000 mile bonus with each 60,000 Marriott points you transfer to Alaska. Overall, here's the Marriott Bonvoy credit cards that we recommend: Marriott Bonvoy Unlimited Card recommended™ Credit Card - Earn 5 free nights by spending \$5,000 on purchases in the first 3 months since opening your account. Bottom line: It's hard to beat the pricing award offered by Alaska Airlines to fly Cathay Pacific economy, business and first class flights to South Africa. American Airlines AAdvantageUse your American miles to fly qatar business class. Image Credit: Alex MillerCabin ClassOneworld Airlines Miles CostTaxes and FeesEconomy80,000 \$76-Business150,000 \$76-First240,000 \$76A program familiar to many American Airlines AAdvantage. For this redemption, you want to focus on using AAdvantage Miles to fly Oneworld partner airline economy and business class flights. First class is not so competitive, so we recommend you look elsewhere to book. The main drawback of these flights is that you will probably be travelling through Europe. Oneworld does not offer non-stop flights between the U.S. and Africa, so your journey will be longer than those of Partner airlines Star Alliance and SkyTeam. Hot tip: Oneworld partners' flights to Africa can only be booked transatlantic. American Airlines has several rules when flying between regions, so we recommend you to exhaust all your options before transferring any points. If you're willing to book a flight to South Africa, here are a few flight examples to get ideas flowing: New York (JFK) - Doha (DOH) - Johannesburg (JNB) for 80,000 U.S. miles in qatar economy classDallas (DFW) - Doha (DOH) - Cape Town (CPT) for 150,000 miles of U.S. business-class Business-Class Miles is easy by following these steps: Search for flights on American Airlines. Book flight online. Paying taxes and fees. Earning American Airlines MilesIt is easy to earn American Airlines miles because the airline has with Marriott Bonvoy and offers several co-branded credit cards. With co-branded credit cards, you'll earn American miles directly with your expenses. Marriott point transfers take 2 days in a 3:1 ratio - consider transferring 60,000 points while you get a 5,000-mile bonus. Bottom line: The American Airlines AAdvantage program doesn't have a ton of sweet spots, however, using American miles to fly qatar could be one of them. ANA Mileage ClubFly Ethiopian business class using ANA miles. Image Credit: Ethiopian AirlinesCabin ClassStar Alliance Miles CostTaxes and FeesEconomy65,000 \$377 Business104,000 \$377 First195,000 \$377 Second Star Alliance Program to join this list of ANA Mileage Club. ANA is best known for its competitive rewards when flying to Japan. What you may not have known is that using ANA miles to book partner flights to South Africa can be a good value. The main drawback of using ANA miles to book partner airline flights is that flights must be booked back and forth. If you're looking for maximum flexibility, other Star Alliance partners, such as Aeroplan and United, may make more sense. Hot Tips: Pricing Award for Star Alliance Economy and Business Class Flights to South Africa, where ANA shines. The program offers the cheapest economy and business class flights that you can book on this list. Here are a few Star Alliance flight partners ideas for those of you who are willing to book a flight: Newark (EWR) - Zurich (HWH) - Johannesburg (JNB) for 65,000 miles of ANA in SWISS Economy ClassWashington, DC (IAD) - Addis (ADD) - Cape Town (CPT) for 104,000 ANA miles in Ethiopian business classFam the required number of ANA miles in your account, follow these steps to book the next flight award: Search for flights to United.Confirm the same availability on ANA. Book an online flight. Paying taxes and fees. Earning ANA MilesEarning ANA Miles should not be a problem because of ANA's partners with both American Express and Marriott Bonvoy. When you earn points in these programs, points can be transferred directly to ANA. Unfortunately, ANA does not offer a credit card for the US market, so you want to focus on getting Amex and Marriott points. Amex points take 2-3 days at a 1-1 ratio, and Marriott point transfers take 7 days at a ratio of 3:1. With what's said, we recommend applying for these Amex credit cards first: Recommended American Express Cards (Personal) Platinum Card® from American Express - There's currently a welcome bonus of 60,000 points after spending \$5,000 in the first 3 months, costing up to \$600 to travel. However, you may be eligible for a welcome bonus of up to 125,000 points with the help of CardMatch. This is our map #1 access to 1,200 airport lounges around the world (including Priority Pass). We use \$3,000 card benefits and benefits each Conditions apply. For fares and platinum card fees Amex, click here. American Express® Gold Card - We love to use this card as it earns 4x outlets in restaurants around the world, including takeaways and shipping, and 4x outlets in U.S. supermarkets (up \$25,000 for a calendar year; then 1x. There's no better card in our opinion if you eat out and/or shop in supermarkets regularly; and you will have access to many benefits and benefits. With a welcome bonus of 60,000 points after you spend \$4,000 in the first 3 months and up to \$100 for a calendar year, this is a strong choice. For Amex Gold Card bets and fees, click here. Featured American Express Cards (Business) Business Platinum Card® from American Express - Right now, there is a welcome bonus of up to 75,000 points after you spend \$15,000 in the first 3 months. American Express® Business Gold Card is probably our favorite Amex business card because we earn 4x points in the top 2 favorite categories that we spend the most in each month, such as Facebook or Google ads. The 4x score refers to the first \$150,000 in combined purchases from these 2 categories each calendar year. After that you earn 1x. Conditions apply. For business gold card bets and fees, click here. Blue Business® Plus Credit Card from American Express - This card offers a welcome bonus of up to \$300 back to boost your business. You can earn up to \$100 in credit statements from each of the following vendors: Dell Technologies, DocuSign or FedEx after you make a suitable purchase on your new card within the first 3 months after your card membership. Super simple, with an annual card fee that earns you 2x points on any business purchase, up to \$50,000 a year. After that, the 1x. Conditions apply. This makes for an easy 100,000 points a year. Asiana Airlines Asiana ClubTurkish Airlines 777-300ER business class. Image Credit: Turkish AirlinesCabin ClassStar Alliance Miles CostTaxes and FeesEconomy80,000 \$377-Business120,000 \$377-First160,000 \$377Another Star Alliance program to keep an eye on, and the one that is often overlooked is the Asiana Airlines Asiana Club. For economy, business and first-class flights, Asiana Airlines offers some of the most competitive premium prices you'll find on this list. What can you do? The disappointment with Asiana Airlines is that partner rewards flights require a phone call to book. Asiana Airlines website does not allow you to search for or book these flights fly: United will be the best website to search for Star Alliance partner flights. You may also find that Aeroplan may be useful for use to search for these flights as well. When you decide to make a trip to South Africa, consider booking these flights to get you there: Chicago (ORD) - Zurich (ERH) - Johannesburg (JNB) for 80,000 Asiana miles in SWISS Economy ClassHouston (IAH) - Istanbul (IST) - Cape Town (CPT) for 120,000 Asiana miles in Turkish airline business class To make the process of booking easier with Asiana Airlines Use these steps when you are ready to book a flight : Search for Star Alliance partners flights to United.Call Asiana Airlines at 800-227-4262 between 8:30 a.m. - 5:30 p.m. at least Monday-Friday.Book flight by phone. Pay taxes and fees over the phone. Earning Asiana Airlines MilesIt'll be difficult to earn Asiana Airlines miles as the airline is the only partner with Marriott Bonvoy. In addition, Asiana Airlines offers 2 credit cards in Asiana Airlines Visa Signature® Credit Card and Asiana Visa® Business Card, however, check-in bonuses and earn bets are modest on both cards. For those of you with Marriott points, the transfer point takes 4 days at a ratio of 3:1. Separately, you'll get a 5,000-mile bonus with every 60,000 Marriott points you carry. Bottom line: Asiana Airlines has competitive prices for rewards for flights to South Africa. The challenge is that you will have to earn enough Asiana miles to book these flights. Avianca LifeMilesMiddle locations provide direct access to the Lufthansa business class. Image Credit: LufthansaCabin ClassStar Alliance Miles CostTaxes and FeesEconomy80,000 \$150-Business156,000 \$150-First210,000 \$150A fourth Star Alliance program to check out this is Avianca LifeMiles. Avianca is known for booking Star Alliance flights without fuel surcharges. This is good news for flights to South Africa as you can fly Lufthansa with very little dollars out of pocket. For these flights, Avianca business and first class prices are at the high end, however, your taxes and fees will be lower, offsetting the extra miles you will spend. The main drawback of Avianca is that the availability of the rewards shown on the Lifemiles.com will match what you find on United and Aeroplan. On top of that, calling Avianca is not a pleasant experience, so you want to focus on booking these flights online. Hot tip: Lufthansa releases first class rewards space within 2 weeks of departure date. If you want to fly a First Class Lufthansa, you will need to be flexible on your travel dates. Examples of flights you can book to South Africa include: Newark (EWR) - Frankfurt (FRA) - Johannesburg (JNB) for 156,000 miles Of Avianca in Lufthansa Business ClassWashington, District (IAD) - Frankfurt (FRA) - Johannesburg (JNB) for 210,000 miles Avianca in Lufthansa first first You are ready to book a flight using Avianca Miles, below are the steps that will help in the process: Search for Star Alliance flights at United.Confirm the same reward availability on Lifemiles.com.Book flight online. Pay taxes and fees, including a \$25 partner reward fee. Earning Avianca LifeMilesEarning Avianca LifeMiles is easy because the airline has partnerships with American Express, Capital One, Citi and Marriott Bonvoy. In addition, Avianca has 2 co-branded credit cards that earn Avianca LifeMiles with your expenses. If you have Amex, Capital One, Citi and/or Marriott points, transfer time and transfer ratios as follows: Amex transmission points instantly in a ratio of 1:1. Capital One Miles transmission instantly in a ratio of 2:1.5. Citi transmission points instantly in a ratio of 1:1. and Marriott point transfers take 24 hours in a ratio of 3:1. With Marriott transfers, you'll get a 5,000-mile bonus with every 60,000 points you pass on. With this said, below Citi credit cards we recommend: Best Citi Credit Card for TravelBenefitsDrawbacksCiti Prime™ Card3 Points/Points/Dollar Spent on Travel/Gas Station, 2 Points/Dollar on Dining/Entertainment, 1 Item/Dollar All Other Purchases \$95 Annual FeesCiti Prestige® Card5 Thank You® spent on airlines and dining, 3 points/dollars on hotel and cruise lines, 1 item/dollar on all other purchases, airline partners transfer points, 4th night hotel free (limited to 2 uses for a calendar year), \$250 airline credit, Priority Access Lounge - 2 guests, and Global Entry or TSA PreCheck credit \$495 Annual fee, must be frequent traveler to maximize the benefits of the card. Bottom line: Avianca is one of the best programs to use to book premium cabin reward flights on airlines like Lufthansa that have high fuel surcharges. Image Credit: Huohenme via UnsplashCabin ClassSkyTeam Airline Cost of Taxes and FeesEconomy \$850 Business1200000 Korean Air SKYPASS is 1 SkyTeam Partner to make this list. The program has competitive rewards prices for SkyTeam partner flights, especially for those of you who want to fly economy and business class to South Africa.2 flaws come to mind when using Korean Air Miles: Korean Air passes on fuel surcharges, and it's hard to earn Korean Air miles. Hot tip: THE SKYPASS program uses region-based diagrams. This means that a flight from any U.S. city to South Africa on a SkyTeam partner airline will cost the same number of miles. When you have amassed enough miles of Korean Air for a flight, consider booking one. These options: Atlanta (ATL) - Johannesburg (JNB) for 80,000 Korean air miles at Delta Economy ClassNew York (JFK) in Nairobi (NBO) - Cape Town (CPT) for 120,000 Korean Air Mile flights as follows: Search for flights on Air France, Delta, or KLM. credit cards and Marriott Bonvoy will be the combination you need to earn Korean Air Miles miles. The costs you put on Korean Air credit cards will directly earn Korean Air Miles. If you have Marriott points, the transfer time takes 2 days at a ratio of 3:1. If you transfer 60,000 Marriott points, you will receive a 5,000-mile bonus. Bottom line: Korean Air economy and business class pricing in South Africa are among the lowest you'll find on this list. To confirm that Korean Air has the lowest prices for SkyTeam awards, we recommend checking the prices offered on Air France, Delta and KLM. United Airlines MileagePlus Use United miles to fly to South Africa. Image Credit: v_pictures through unsplash Cabin Class United Airlines Cost of taxes and fees Economy 80,000 \$150,000 Business 140,000 \$150 Fifth Star Alliance program to make our list of United Airlines MileagePlus. Many American travelers are familiar with the United, but you may not have thought to use the United Miles to fly to South Africa. Economy and business class pricing are not the cheapest you'll find, however, you won't be on the hook for fuel charges, like Avianca. One downside with United is that the program uses dynamic rewards prices for its own flights. This means that the cost of the United flight will be tied to the monetary value of the flight. Partner airlines such as Lufthansa currently use the rewards chart, however, these flights may move to dynamic pricing in the future. Hot Tip: United requires 3,500 additional one-way miles for partner reward tickets booked within 30 days of departure. Reward tickets for United flights also require additional miles: 2,500 additional miles for premium tickets booked within 7 days of departure, 2,000 additional miles for premium tickets booked between 7 and 26-27 days of departure, and 1,500 additional miles for premium tickets booked between 26-27 and 30 days of departure.
