Color:93 Shocking pink Discover unsurpassed color vibration thanks to built-in electrification of pigments. Schwarzkopf LIVE Color Ultra Brights is HD intense color. Live HD-live pigment technology intensely saturates every strand of hair with high-definition color. The semi-permanent formula with ultra bright pigments gives electrifying, bright and colorful shades full of bright brilliance. For a softer shade you can also create pastel shades by mixing the color cream with the air conditioner included. Top tips: For blue or pastel shades, hair should be very blonde, so pre-relief if you™ haven't been blessed with this color If you're™ create pastel shades, the color you pre-mix is a good indicator of the color result - if you want a brighter shade, just add more color cream to the semi-permanent perfect fit to maintain shades of color. Remember that if your hair is™ dyed, it can affect the results. Avoid staining the fav jumper by having an old towel on the finished one and use some skin barrier cream around your hair/ears line. There are some cotton buds and skin toner handy just in case you get some product on your skin. If you™ lucky enough to have thick locks or longer shoulder length hair,™ will need two or more packs for a good, even coating. I enjoyed my Schwarzkopf pink court! I like that it's ready to use and there's no squeezing pipes and mixing smelly chemicals together. I think the size of the package is super stingy if I'm honest, so I'm glad I was sent two packs. I used this on the hair I've already used Color Boost Shampoo on - if I used this on blond hair, I think I need 4 packs and I only have a bob. It was easy to apply evenly (said my sister who made the application) she used a colored brush for use. The overall effect was bright pink, even in tone and really quite bright. It didn't look any different than when I had my hair done in the salon - and comes in much cheaper. Tips: Use a Colour Boost shampoo to keep the vibration. Schwarzkopf LIVE Ultra Brights 093 Shocking pink hair dye 4.2 5 14 14 Shocking!! Be prepared for a bold color transformation. Easy to apply and lasts well (about 4 weeks) it disappears gradually and evenly on bleached hair. I have used the permanent colors of Schwarzkopf in the past and have never been disappointed. However, I don't think they make subtle! April 11, 2014 Creates a gorgeous pastel pink when diluted I used this product on the ends of my hair to create a light pink ombre effect by adding conditioner to the dye. The color was absolutely gorgeous; However I would like to warn you that even when mixing with a lot of air conditioning this dye is very bold! It disappears pretty quickly, but it's easy to refill it every time you state your hair, just using pea-sized amounts, and so I think it's worth the price. It also disappears very thinly and is not spotty like many other semi-permanent dyes. I definitely recommend this product. May 30, 2014 Fantastic Color, when first applied, disappears quite quickly. Used this dye on The medium blond hair and color turned out fantastic, unlike some of the other brands I've used where the color hasn't taken properly. The color turned out to be more cerise than the shocking pink on the box, the box, its still a lovely shade, which I am very pleased with. I have shoulder lengths of thick hair and I need two full boxes to cover completely. I knocked one star off as I found it quite hard to apply the dye more like the paste I found. It disappeared quite significantly after the first wash, although the color remains a lovely light pink hue.
