For a given grade level, all English notes are placed in a list of orders with a calculated percentile for each score, based on its position in the list. Math and English percentiles from (a&amp;b &amp; above) are plumb,based on the number of students who complete each type of test, to create a mathematical percentile + English plumb per school. Mathematics combines math + English to put in a list of orders for particular school type (elementary/middle/high/K-12) and a percentile-in-school compute type. How work rate: The school percentile is a number between 0 and 100 that reflects the percentage of schools of the same type (elementary/middle/secondary/K-12) in California with an equal or lower combined math + English percentile (from 1-c above). For example, a school in percentile at 70th would have a combined weight percentile that was equal to or better than 70% of the other schools of the same type. The CSR rank is determined by a school's percentile in comparison with other schools of the same type in California (from 1-d above). (1 is the worst, 10 is the best). Schools at the 90th and highest rate have ranked 10,80%-89,999% rank 9 and so on. A similar number of schools are occupied each rank. \* Is this rank from data in the 2016 California Assessment of Student Performance and Progress (CAASP). Safe Road to School is an international movement to make it safe, convenient and fun for children and families to choose healthy, active, and sustainable community schools. The goal of Safe School's roads is to get more kids bike and walk to school every day. This improves community and personal health, benefits the environment, increases safety, and reduces traffic congestion around schools. Cupertino Union School District continues to build partnerships with cities where our students live (Cupertino, Los Altos, Santa San Jose, Saratoga, and Sunnyvale) so we can all be sure that our students will travel to and from school in the most healthy way possible.
