Heaven made him the Artist to protect the Earth, and after one of his missions in America he gets a new title of Dark Knight of Los Angeles. Vanguard Store was voted the best workshop that sold the best weapons and armor to the point where all competitive markets have never had the opportunity to be taken seriously. The attack of Kiroah and his wolves made a good scene for Yu IlHan to establish his dominance and reputation as the irreplaceable keeper of the Earth. The wolves he captured and rescued became his subordinates. The way this new group addresses him shows that Yu IlHan's position towards them is similar to that of the king. When he was lost in an abandoned world, Dareu, Yu IlHan met the elves in trouble. Helping this ancient race evolve again and protecting them from the threat of dragons made him their new emperor. He is then quickly recognized as the strongest and most powerful man on his planet through the pseudonym Sunsanoo or Deathgod. All earthlings have great respect for him and can go as far as abandoning the former political forces on Earth to please him. What they found special was the large Bittersweet Persona mansion, which attracted monsters, Vanguard, which handled weapons that were unheard of, and Angel Tear, which handled unprecedentedly exquisite desserts. In other words, everything related to Yu IlHan. His class and main path of fire, spears and concealment (along with the creation of artifacts with a super-strong body and useful skills) fall down the skill to regroup many of them. His innate ability is concealment (which is well paired with his overly cautious temperament) is his core and most well-known skill (Death Skill, Soul Enchantment, Death collector). His mastery over a large number of labor techniques (1st: Forge, Recreation: Excavations, Demolition, Craft Magic and Techniques, Cooking) make him a god-like Maker Even Get God's Smthing Blessing) His His ability (Aka: Transcendental Regeneration, Recording, Max Language, Higher Curse of Resistance, Extreme Poison Resistance) along with is Sub Classes made him a great traveler with great survival/practical skills and good guidance (rule, etc.,). From the perspective of combat prowess, his weapon skill (1st: Spear (Skills: Great Cosmos-breaking spear, Spear untraceable trajectory, eight-tailed dragon spear), 2nd: Whip, 3: Hammer (Thunderhammer), 4th: Sword) and elementary specialization (Fire Spells: Flame, Eternal Flame, Purple Fire, Dragon) Workaholic. Single. Extremely careful and prudent and takes care only of his friends and relatives. He can be as ruthless as DeathGod for those who threaten him or his loved ones. Then he spoke. At that moment another woman's face flashed in his head, but his feelings for the man were insignificant compared to his feelings for Lyra. The most special to me is you - Yu IlHan in Liera He was left on Earth alone, while all the others were sent to other worlds to prepare for the Great Cataclysm, because he had an innate ability of concealment that could avoid even the eyes of God. Heaven sent an angel named Lita to help him train for ten years until they returned, but ten years later humanity did not return, and Yu IlHan resumed his preparations for the Great Cataclysm, teaching his body, martial arts, weapons and learning all the languages of the world and reading all the books, etc. for 1000 years, where Lita stayed with him. At the end of the training he was forced to secede from Lita and swore to become the Higher Existence and see it again. 1000 years known as The Forgotten Millennium Add Photography to this galleryYu IlHan doesn't really know how long it actually stuck in freezing time until it was revealed later in the chapters because it stopped counting after 50 years passed, well exceeding the promised time limit of 10 years. His most rewarding skill was that he had a pious mind in reading situations because of reading books for several hundred years during the Forgotten Millennials He also has a skill that makes him feel jerky, even if it's a wrap open 200m from him. You don't have to make IlHan your enemy. Do you see that right? His mental attacks are stronger than his physical attacks. (Liera) Ch.109 Cannot gain experience from those under level 100 after purchasing 3rd grade. It gently melts in his mouth as soon as the bite on it. Oooh, Carnival! Yu IlHan admires Gordon Ramsay. to the author) Yu IlHan had the art of concealment since birth even before the earth was connected to the recording of Akashic Yu IlHan the son of one of the four Archangels: Gabriel. His father hid this truth until he became the 5th Transcender of Yu IlHan later understood and accepted Lyra's feelings. Yu IlHan was very strong in seeing through and destroying false relationships on the surface between people, but was very weak against honest attachments to himself.
