There are currently no scheduled classes for this course. However, this course can be scheduled to meet your specific needs. For more information about this course or to schedule a class, please contact the Emergency Services Training Institute at (866) 878-8900 or [esti@teex.tamu.edu](mailto:esti@teex.tamu.edu) to get the latest timetable. This course is intended to be a means of exchanging proven incident management strategies and practices, as well as to enhance teamwork and coordination between mid-level managers and agency team personnel directly responsible for responding to emergencies in response to incidents involving incident management (ICS). The course uses scripts and exercise applications to highlight key issues and facilitate discussion. The final table exercise is designed to apply the information provided during the course in a controlled environment. There are no prerequisites for this course. Attendance requirements To meet NFA attendance requirements, participants must complete each training module and complete all necessary course assignments, activities, quizzes and/or the completion of the exam course. Exceptions can be discussed with the lead instructor. Recommended themes ICS Basics Review Single team Incident/event assessment Agency guidance for incident targets Planning process Incident resource management Demobilization, transfer of command and closure Recommended audience This course is available to all emergency and crisis response officers. Continuous education and professional loans Texas Law Enforcement Commission (TCOLE) Texas Fire Safety Commission (TCFP) Texas Fire and Fire Marshals Association (SFFMA) Other information To request this class in your jurisdiction or department, please use the Emergency Services Extension Request Form (ESTI). To request admission to an already scheduled course, call the contact listed in this course schedule. This will allow the course host to provide the appropriate numbers of student guides. All expansion courses are only in the classroom. Incident Management Training Programs (ICS) are courses that address the needs of government and local officials assigned to officials associated with the command and control of the National Incident Management System (NIMS). This includes assistance provided to support special ISU training courses run by designated incident management teams (MSMs) within the Commonwealth.
