FLAC is an audio-code format similar to MP3 and AAC, but without loss, which means that the sound is compressed into FLAC without loss of quality. YMusic (Youtube Music by Khang) is a YouTube video app, even when your device's screen is off. When you play a video in the YouTube app and then turn off the device screen, the video stops playing. With YMusic YouTube music player and downloader, however, you can continue to listen to any video even when the screen goes away. But while it's the main feature of YMusic, it's not all it does. From this app you can also download any song from YouTube and save it in different formats right on your device. YMusic YouTube music player and downloader is a very interesting app. With it you can easily stream music from Youtube as if you were using Spotify or a similar app. And as if that wasn't enough, you can also use it to upload videos to your device's memory and listen to them even without an Internet connection. The download will begin soon. Super handy music app for you, enjoy music from YouTube with little data consumed! Click Download to get the latest APK file. YMusic plays only audio YouTube videos in the background, except for up to 90% of the data consumed. You won't worry about playing YouTube music with a slow connection to the network, and spend a lot of data costs each month. It's easy to download YouTube videos from any format you like, include the MP3 format. In addition, YMusic can automatically detect the artist and album video title using last.fm service. This makes your music collection more intuitive and easy to find. YMusic forked out of jockey's open source project - a super powerful and lightweight music player. Customized interface with 81 color combinations to choose from: integration Last.fm to extract images and descriptions of performers - Smart Playlists with fully customizable rules - Custom equalizers - Gapless playback - Home Screen Widgets Just click Share in the YouTube app, you can easily go to YMusic to listen to videos in the background or download to play offline later. Later.
