However, there are private schools that meet both primary, secondary and secondary and secondary levels. With its central location, the Sunshine Coast is just a short drive from the capital and many other points of interest and educational resources. With an ever-expanding population, the availability and quality of education in the region is constantly improving. Below is a mixture of both public high schools and private high schools that currently have an internet presence in the Sunshine Coast area. If the school is not on the list, please do not hesitate to contact us. Just an hour north of Brisbane, you'll find the quieter equivalent of the bustling Gold Coast. Water sports are very important on the Sunshine Coast: swimming, surfing, diving, kayaking and rafting (in the hinterland rivers), as well as other sports such as skydiving, bungy jumping, sloping, horseback riding, golf and rock climbing among countless leisure opportunities. Noosa, a seaside resort, has become one of Australia's most popular resorts. Noosa is small and stylish and is often compared to St. Tropez. It invites you to walk with good restaurants and many tempting shops. The Sunshine Coast is pleasantly warm all year round. Beautiful coastal walks lead to bathing bays or national parks, where you often see a koala bear in the eucalyptus tree. Deep green mountains characterize the hinterland with the Greenhouse Mountain, which offers breathtaking sea views from many hiking trails. More than 100 species of birds, about 70 reptiles and 30 species of frogs have been discovered in the area. Very nice places and well-known markets characterize this area. Eumundi is definitely worth a visit to a large market on Saturday morning and Wednesday morning. Learn more about DISCOVER schooling at suncoast Where every day is an adventure of learning and development. Discover a dynamic, fun, caring school environment discover preparing graduates for a diverse and exciting future world of Discover We strive to be a school where compassion towards others is the first response, where every student is highly motivated to learn and solve, and each believes that they can make a difference in our world, today and tomorrow. Learn more in the meantime, all but two students who have extended stays in Australia have returned home as well. Official post-processing, such as recommendations and refunds, has been successfully completed. Our presence on the ground and thus in the same time zone greatly facilitated this organizational effort. The issues could be resolved easily and quickly with schools and school authorities. In addition, we have rebooked our students, who wanted to come in July and October 2020, and whose entries are unfortunately not yet possible, by 2021. The best possible alternatives were discussed individually with the families and implemented accordingly. Where cancellation was inevitable, school and host family fees were fully repaid. At the same time, of course, we will process new applications for secondary school stay in 2021 and without saying so. If you are thinking about changing students, we recommend that you contact us as soon as possible so that we can book a place in the desired school by registering. As we wrote above, many students who wanted to come in 2020 have to move to 2021. Places in popular Australian schools will be quickly allocated by 2021. Once again, we would like to thank our customers for their constructive and patient cooperation. Such difficult times show the importance of good and personal relationships between individual schools and education authorities in Australia. Stay healthy and cheerful!
