You'll have to guide the line through various 3D scenarios while playing different tunes, rhythms and notes which will tell you that you have to change direction. The original offer for this exciting maze game. Pay attention to the songs, they will give you a lot of clues about the path you should take to avoid obstacles that interrupt your progress. You will travel to different worlds with different scenarios, each with different music and that as you can imagine as you progress in the game will take more and more rhythm. Plains, piano, desert... it goes through its various levels. How to play is very simple: with your finger you have to lead the line through different settings by listening to the songs carefully. Paying attention to the composition will help you know when you should Screen when it is necessary to make tight turns, avoid obstacles and adapt to a world that is constantly changing around you. Features the original soundtrack of the game, composed for the game. Different levels of progressive complexity that increases with your own stories. Practice mode. Very addictive. You will only need to play a little to see how well you have done to download APK to your smartphone or tablet to devote hours of play to this peculiar name. However, if you're looking for a way to play all your levels on your PC or Mac, you only have to do it through the emulator... As usual.
