This course is for everyone who wants to get rich by investing in the stock market. Rating: 4.5 out of 55 months ago I am very grateful to us for this course. This gave me the necessary knowledge of TA. I'm going to use WE courses for my next trading training. I have one note that can help improve the performance of IU: It would be very helpful to have a transcription that is prepared by an instructor rather than an automatically generated one. Because proper transcription is such an important element for non-native English speakers. (Important) Before we start!00:19As to trade Elliot Waves - Examples06:24As to trade exponential moving averages (EMA) - Examples06:34As to trade moving average divergen (MACD) - Examples06:05 As to trade the ultimate thing oscillator (KST) - Examples05:48 How to trade parabolic stop and Reverse (Parabolic SAR) - Examples07:02 How to trade Average Sent Index (ADX) - Bollinger Bands (BB) - Examples08:03 How to trade Keltner Channels (KC) - Examples07:58 How to trade Don's channels (DC) - Examples06:43 As Examples06:43 How to trade channels Average True Range (ATR) - Examples08:05As traded relative volatility index (RVI) - Examples07:00As to trade pulse oscillator (MO) - Examples05:36As to trade relative strength index (RSI) - Examples07:53As to trade Stochastic oscillator (SO) and Stoch RSI
