Welcome to Sign Up Sign Home Solutions The CAMERA Models frequently asked discussion began sjcam\_admin, May 31, 2017. Tags: firmware update sjcam zone upgrades (you must log in or sign up to respond here.) To get the most of your SJCAM camera, it's important to keep its firmware up to date. Click on the links below to download the firmware files and read the latest improvements. Please be sure to pay attention to the model series, and in some cases the size of the display (SJ4000 Series), as well as the batch of products (SJ5000, SJ4000). Select a series of cameras and click on the icon: The firmware file changes the magazine V1.3.1 SJCAM M20 Firmware Download and update improves the security of the update application and may be future firmware releases can be updated through the SJCAM zone (should update this version in the first place). Fixes: 720p connection to app problem. Adds: Low-light mode: When you turn off the frame lock. When turned on in the dark, the frames change at night to make the video lighter. Corrections: OSD conflict with icons. Corrections: Fixes after the camera is turned off, a long power button causes a flashing LED. Corrections: When in dashcam mode, when the power is off, there is an extended 10 second period before the power outage. When in other modes, the camera will remain turned on when disconnected from the power bank. V1.3.1 SJCAM M20 Firmware File Download and Update2.87 MB The firmware file changes the V1.5.4 SJCAM SJ5000X Elite Action Camera Firmware Update captures the quality of the video on all 30fps resolutions when Gyro is enabled. Adds 0.5s to the video span. sjcam firmware update
