Kwame Nkrumah University of Science and Technology, popularly referred to as KNUST, is the largest public university located in Kumasi, the Ashanti region and the second university of Ghana. It was formerly known as Kumasi College of Technology, but the name was changed to Kwame Nkrumah University of Science and Technology under the Parliament Act of August 22, 1961, under the direction of R.P. Baffur. The short history of the University of Science and Technology was replaced by Kumasi College of Technology, which was created by a government decree of October 6, 1951. It was, however, officially opened on January 22, 1952 with 200 student training teachers transferred from Ahimota to form the core of the new college. The college was granted university status and was renamed Kwame Nkrumah University of Science and Technology (thus the birth of KNST) by the law of Parliament on August 22, 1961. This name was changed to the University of Science and Education after the revolution of 24 February 1966, but was later renamed Kwame Nkrumah By another parliamentary act, Act 559 1998. Osagiefo Kwame Nkrumah believed in education and was instrumental in the establishment of Kwame Nkrumah University of Science and Technology in 1952. The University is one of Nkrumah's major achievements and an incredible university in Ghana that has a huge impact on Ghana's education sector. Courses and cutout points In 2005, the university reduced various faculties to six colleges. A potential student can only be admitted to one of these 6 colleges. To these are: agriculture and natural resources of the arts and built environment Engineering Sciences of Health Humanities and Social Sciences annually, the university receives numerous applications from potential students who are looking for a quality higher education. For students wishing to study any of the 72 undergraduate courses offered at KNUST, the university has a strict cut point lower as by 2020. Bachelor Cut-Off aggregates for 2020/21 Admission (serve only as a guide for applicants) 1 LL. Admission forms and online registration phones have been included on this page in case you need any help. This is commendable given that this is a new product that they are rolling out for anxious potential students. Do so to guard the serial number and contact on the card with your heart as it will be used later to assess your reception status. The KNEST Admissions List Admissions List is published on the school's website as and when, but usually takes about 2-3 months and is also announced to the public through

digital and print media. You can find out your admission status using the serial number and pin on the card you used when applying for your preferred programs. Alternatively, you can visit the dean's student office to find out if you have done so in your preferred program or not. IDL - Distance Learning Institute In addition to regular courses, offers a distance learning program for students who can't necessarily located in the Ashanti region and cannot afford the luxury of moving to KNUST or Kumasi for longer periods of time. Below is an image of the IDL center and the campus of Accra, which was commissioned. This six-story building and its basement are equipped with nine 150-seat lecture halls, a 120-seat computer and server rooms with multiple offices and two-seater living rooms in the office block. An estimated cost of 10 million five hundred thousand Ghanaian Cedis (GH 10,500,000.00) was spent on the facility. Fees for each program are reviewed annually and paid depending on category 1 fall under. Students may fall under one of these main categories: Foreign students (Fresh) KWAME NKRUMAH UNIVERSITY SCIENCE AND TECHNOLOGY, KUMASI FEES FOR 2017/2018 ACADEMIC YEAR UNDERGRADUATE INTERNATIOINAL - FRESHMAN PROGRAMMES ACADEMIC FEES (USD) Social Sciences 4,100.00 Law/Business Administration 5,800.00 Biological Science/Env't Science/Physics/Chemistry/Mathematics 4,614.27 Architecture/Building Technology/Quantity Survey/Development Planning/ 4699.27 Construction Ecology/Optometry/Actuarial Science/Industrial Arts/Comme. Университет дал жизнь окружающим его общинам; Бомсо, Айедуасе, Котей и Кентинкрону. Хостелы и дома вокруг KNUST Очевидно, из-за большого числа студентов, принятых каждый год, не каждый студент может быть резидентом в 6 традиционных общежитий. Это где индустрия недвижимости приходит, чтобы решить этот вопрос. Помимо популярных Бруней и Tech Credit Hostels, из-за их расположения на территории кампуса, ряд хороших хостелов также возникли вблизи и далеко от школы. Очень нужно учитывать близость к факультету, безопасность и комфорт при выборе хостела. Для тех, кто хочет по-прежнему чувствовать себя как дома вдали от meqasa.com has a number of good properties in Kumasi you should check out. The KNUST portal at the heart of this is the technology, therefore, the introduction of a student portal where students log on to their username, password and student ID to assess their fees, results, etc. KNUST has also pushed itself to introduce a mobile application for students called AIM, which stands for Academic Information Manager. This makes it easier for students to evaluate information about their courses, results, and ads for the convenience of their phones.
