November 12, 2018? 12, 2018, the Marvel writer says he was fired to appease trolls. It won't be the first time. 15, 2018. Quarts with the cinematic boom of superheroes. Years, Marvel Studios came to the fore. Landscape with a series of almost unstoppable hits in their sprawling Marvel Cinematic Universe (MCU). It's hard to root for such a studio juggernaut, but their films are often based on a unique, audacious sense of humor and built around less-than-banking stars cast as obscure comic book characters. It's hard to imagine now, but not so long ago, it was considered quite a gamble for Marvel to cast Robert Downey Jr. as the main character in Iron Man. Or Chris Evans in Captain America. Or Chris Hemsworth as Thor. Their eyes on new (or in the case of Downey Jr., recently sober) talent have so far served them well. The ultimate fame of these actors makes it even more interesting to return to the oddball triumphs of his early career. Before they became heroes, they played high school heart throbbing, lousy boyfriends, chainsaw poop in horror movies, and more. Here are some of the weird, amazing movies Marvel stars made before they were heroes. 1. Paul Rudd in Wet Hot American Summer. With the moderate if not overwhelming success of Ant-Man, Paul Rudd joins the ranks of America's greatest and most profitable heroes in the MCU. Back in 2001, he starred in the critical and commercial failure of Wet Hot American Summer. The film has since become a cult classic, packed with comedic stars like Rudd shortly before their rise to fame. It's both a summer camp movie and an absurdist parody of summer camp movies that become more surreal the longer it goes on. Rudd plays a hilarious kid's bad boy boyfriend, in one of the best comedy performances in a film full of them. Rudd has a long history in comedy films, starring Anchorman and its sequel, as well as Judd Apatow's director Knocked Up and This Is 40. 2. Chris Evans's Not Another Teen Movie. Paul Rudd isn't the only Marvel star to appear to have dabbled in parodies in the past. Chris Evans, Captain America fame, starred in this 2001 lampooning high school movie tropes. Chris Evans embodies vain self-satisfaction as a football star tries to turn a so-called nerdy girl into a prom queen. Not another teen movie is often overlooked in a wave of lousy 2000s parodies, but its dedicated parody of 80s and 90s teen movies creates more than a few well-earned laughs. Evans also flexed his comedic muscles in Edgar Wright's video game-esque Scott Pilgrim vs. The World in 2010, in which he played one of seven evil-exes titular Scott Pilgrim must win to get off his crush Ramona Flowers. Prior to Captain America, he dabbled in the world of superheroes,

albeit far less successfully, with the role of the Human Torch in the 2005 version of Fantastic Four. 3. Chris Hemsworth Cabin in the Woods and another Avenger starring in a parody film. The cabin in the woods was actually made before Chris's initial turn as Thor in Thor (2011), but was soon released. Hemsworth Hemsworth one of five optional teenagers who visit a hut in the woods and fall prey to mysterious, murderous forces. There's a self-aware, post-modern twist in the film, however, that turns it from a lousy horror movie into a masterful, hilarious meditation on why we love lousy horror movies so much. Hemsworth had a short career before his marvel casting, but he pick up a bit of a piece as Captain Kirk's doomed father in the prologue to the 2009 remake of Star Trek. 4. Chris Pratt in Her Barely Before the Release of Guardians of the Galaxy, in which he starred as Peter quill, or Star Lord, Chris Pratt landed a supporting role in the low-key 2013 sci-fi Hers, which follows Joaquin Phoenix as a lonely man who falls in love with a computer voiced by Scarlett Johansson. It is a fantastic and amazing down-to-earth vision of our future and our relationship. Pratt, once nothing more than Andy's chubby klutz at NBC Park and Recreation, was catapulted to fame soon next year. Side note: MCU is just lousy with guys named Chris, right? 5. Robert Downey Jr. in heart and soul to be fair, Robert Downey Jr. had a long career before his first turn as An Iron Man in 2008, but heart and soul mostly forgot the gem of his early 90s heyday. He stars as a child tied to several restless souls from the 50s who rely on him to complete his unfinished business. The high-concept setup provides ample time to admire Downey Jr.'s considerable comedic talents as an impressionist and enjoy an old-fashioned screwball-esque plot as it unfolds. Downey Jr. has suffered from legal problems and drug addiction since 1996 from 2001 before pursuing a successful career leading to Iron Man. He starred in the cheeky neo-noir Kiss Kiss Bang Bang (2005) as a hapless Los Angeles resident embroiled in a web of crime. Check out the Entertainment Cheat sheet on Facebook! More from Entertainment Cheat Sheet: Whether you're an expert or just picking up your first comic book, these guides to the best reads, film adaptations, characters, creators and conventions will take you from buddy to hero. Features starring characters from Deadpool in Wolverine in Captain America have propelled the Marvel Universe into the spotlight, but how well do you really know the world? Connect the missing dots and read reviews of Marvel's greatest fights, characters and triumphs in all its different environments. Every month, hundreds of comics hit the shelves. It seems that new names appear every month. With all these comics to choose from, what does the new collector do? Check out the list of the best popular comics out there. Does this mean that these are the only comics worth reading? Of course not. These comics are just a good place to start. So do yourself a favor and check of these titles are on this top list of popular comics. Comics. X-Men have been a fan favorite for decades. For many, X-men represent the oppressed underdog. This comic consistently shows the creative team at the top of their game. While the series has been going on for years, the story arc usually lasts about six questions, allowing new readers of the place to jump in. In a team with artists EdOm Benes and Sandra Hope, JLA has a resurgence in popularity. The comic really took off with sales going through the roof, and JLA is stronger than ever. Brian Michael Bendis changed the Avengers forever. He renewed the title with a brand new team of heroes adding fan favorite characters Spider-Man and Wolverine to the mix. With artists such as Frances Laneil Yu on the new Avengers and Frank Cho on the upcoming Mighty Avengers, Bendis has taken the Avengers to new heights of popularity. There is no doubt about that; Batman is one of DC's main characters. The title had a plethora of high profile creators on it, including Jeff Loeb, Jim Lee, Frank Miller, and more. Grant Morrison and Andy Coubert have been lighting up the Batman world with shocking results for characters associated with the title. J. Michael Strazynski, JMS for his fans, managed to bring even more emotional depth to Spider-Man. The maturity in his writing shows how he handled the Civil War plot, showing a confused hero on the fence a huge challenge. The art of the artist Ron Garney is excellent, often reminding me of Romit or Ditko's work from the early days of Spidey. Superman is a classic superhero with fans all over the world. He is one of the most famous superheroes in the world. Adam Coubert's art is impressive, and the pace and storytelling are excellent. Movie fans as well as fans of the character are in for a treat with the return of villains like General zod, Flickr's Greg Pack and artists Aaron Lopresti and Carlo Pagulayan have rocketed the Hulk in a story that is close to rivaling Marvel's crossover event. Civil War. Pak returns the Hulk to his roots and gives him peace to destroy. The result, along with stunning art, did great things for the popularity of this character. Vimeo Wolverine is arguably one of the best characters in the Marvel universe. The name has seen many great creators associated with it and it continues to sell well. The latest creative team of Jeff Loeb and Simone Bianchi will surely send Wolverine's popularity even further ahead. Flickr Mark Millar is famous for pushing the envelope with huge story arcs, violence that reflects today's issues, and many twists that leave the reader wanting more. The art of Brian Hitch is superb and very detailed, showing massive battles and emotions from the characters all at the same time. If only will stay on schedule and arrive every month, then this comic will rank much higher. Above. Teen Titans have seen a huge increase in popularity with the help of the hit series, as well as some great writing and art. Writer Jeff Jones took the Titans to a new ground that would make the classic team of Perez and Wolfman proud. Pride. marvel comic books pdf free download. dc and marvel comic books free download
