6-to 3D Paper Star (Northern Star) 8-point 3D Paper Star (triangular dots) 12-point 3D Paper Star (pentagonal dots) 20-point 3D Paper Star (triangular dots) 26-point 26-point Dot 3D Paper Star (Traditional Moroccan Star) 26-point 3D Paper Star (Star of Bethlehem) View all the paper stars and moravian star models available about HowToMakeMoravianStars.com: This site sells printed patterns ready to be cut and assembled. Each template comes with general instructions and a sequence of photos to illustrate the build process. The book How to Make Morav Stars is recommended to read for anyone who wants to make any of our models. The book details each step involved in the six included paper star projects, as well as all the other paper star patterns sold here. Useful photos and illustrations make the process crystal clear. The book will also teach you how to design your own models. Viewing the content table needs help with the template you bought? No problem... Each book order includes the author's direct email. Send an email with your questions. Page 2 Back in the nineteenth century, Herrnhuter Sterne was already covering rooms and hearts at the Moravsk boarding school church. Creating Heruterator Sterne together is a way to invite peace and introspection to make their entrance and traditionally begins the Christmas season on the first Sunday in Advent. This tradition is maintained to this day. Or maybe not? Then it will lead you to the assembly instructions: PDF download Plastic Star (13cm) A1e/A1b PDF download Plastic Star (40cm-68cm) A4/A7 PDF download Plastic Star (130cm) A13 PDF download paper star assembly video Of Plastic Stars
