Luca Turin is the world's most famous perfume critic and scientist. Together with his wife Tanya Sanchez, he wrote a book about perfumes, composed of a plentiful number of perfume reviews called *Perfumes*, guide A-I. Each perfume is rated from one to five stars, one means that the perfume is a complete failure and should be avoided ... and five stars means it's a masterpiece. In this article I present to you all the spirits that have received five stars and are considered the best spirits ever. Soon there will be another book by Luca Turin and Tania Sanchez that will cover all the perfumes launched at the same time. I highly recommend you check out their amazing book, it's very (sc) entertaining and more than informative.
