There's nothing on the first screen right now, so go up the stairs. Take the garden gnome. It's a Super Item, which means you can explore it and use other items on it and sometimes even flip it over. Also, click on the flashing street lamp to get the key for your log. Then get it right. You can also watch the first part of my video step-by-step guide here: 2. Keep going until you see the garage. Enter and take a leaf blower. 3. Go back and follow the left path. Continue, over the bridge and then up the stairs to the treehouse on the back. 4. Use the lamp key to solve the wheel color puzzle in the tree. It goes red, green, red, empty, yellow, empty, blue, empty, blue. The rope ladder will fall from the treehouse. Also, use a sheet blower on the leaves and take a bowling ball. Enter the treehouse. 5. Take a golf club and a diving mask and then leave. 6. Go back to the bridge. Use Use Diving mask with water to get stone 'G' enclosed in rusty metal. 7. Get back on screen. If you click on the figure of the person, he shakes his hand and the welcome mat flips over. But he flips back. So put the bowling ball in his hand and then click on it to swing it. Now it will stay in place and the welcome mat will remain flipped. Grab an old coin in front of the door. 8. Explore the garden gnome in your bag. Turn it over and use the old coin to unscrew your back. Take a little key from the inside. 9. Go back to the front of the estate. Use a small key to unlock a small lock on the gate under the porch. Then pass it. 10. Take a sticker book and a piece of tape from the top of the drawer. Notice the pile of fresh dirt. We'll get back to that later. 11. Leave and go out on the porch. Explore the items on the table. Grandpa's print on the coffee cup. Use a piece of tape to remove your fingerprint, so you have a tape with a fingerprint. 12. Head back to the left side of the estate, over the bridge again. Click on the door of a small building here. There's a fingerprint scanner. Place the tape on it and it will scan the fingerprints and unlock the door. Go inside. 13. It's Grandpa! Talk to him and he will ask you to find his blender for him so he can work on building a time machine. After you finish talking to him, take a bottle of sulphuric acid. 14. Open the rusty letter 'G' and pour sulphuric acid on it so that you have a good, clean 'G' stone. 15. Go back to the front of the estate. Insert the G stone into the slot on the door and then go inside. 16. Go through the right doorway to the dining room. Open the cupboards to get a microscope. Then go to the kitchen. 17. Take the balls out of the cookie jar. There's nothing else to do here, so go through the doorway to the laundry room. 18. Take the dust of rabbits. We'll be back in this room later. 19. Go back to the entrance and this time left to the living room. Lift the pillow onto the chair to get a blue sock. While you're here, you can open the door to the back for a label for Grandpa and water mill. 20. Go back to the entrance. Ignore the third door at the moment. Go upstairs. Ignore the seals and toy balls at the moment. Enter the bedroom. There's something on the fan but we can't get it yet so ignore it at the moment. Take the suckers out of bed and add them to your book stickers. The cabinet requires a hint, so we'll come back to that later. In the meantime, go to the bathroom.
