Perhaps the benchmark in the world of open world sandbox action game Grand Theft Auto. However, do not lose sight of the series Gangstar, created by the French studio Gameloft, which with Gangstar Vegas made it clear what it is capable of on iPhone and Android. Absolute freedom in the city of New Orleans City Of Mississippi Delta is a scenario in which the action of Gangstar New Orleans OpenWorld develops, in which we can move into a vast open world with everything necessary to make us legendary in the world of crime: vehicles and weapons everywhere to leave their mark in one of the most specific cities in the United States. This game has versions for smartphones as well as for Windows PCs. And it's worth it because we'll live an adventure surrounded by bikers, corrupt cops and voodoo priests in the midst of big action games. Become the king of organized crime in Louisiana. Highlights is a full-blown action video game and shooting that offers aspects such as the following: Walking through the city of New Orleans, from the French district to the suburbs and marshland. High-quality graphics and a beautiful soundtrack. Get involved in gang wars and defend your territory by attacking their rivals. Customize your character with your own brand. Get all kinds of weapons and make them evolve. Adapt vehicles and gangsters to your style: become a fighter or explosives expert you choose. The video game offers us a mode of history through which we can develop our character and experience wars between different gangs of organized crime. It also offers what we might call an arcade mode in which to travel around the city to your liking. The game caused a lot of anticipation, and when it comes out it was a recurring issue on the site forums and social networks because it wasn't available in all countries. In fact, many users have tried to download APK from Aptoide, but now you no longer need to look for alternative sources because you can download it around the world from Google Play. Download and install the game to complete all the interesting missions, explore the big places in the game, use vehicles and dozens of weapons to defeat your enemies, and have fun enjoying the game. Gangstar New Orleans OpenWorld's gameplay is strictly related to the capture of blocks controlled by other gangs in the city. The main goal of the player would be to play for one of the gang members who wanted to become his most powerful gang in the city. The whole city is divided into areas belonging to some gangs. Many missions are aimed at capturing such regions. Regular fights are taking place here, and gangs are being challenged to own the territories. Be prepared to fight with other players for part of the territory. The graphics of the game are very similar to the GTA series for mobile devices. There are great places in the game to watch, good animation, detailed objects, and weather volatility that it was in the full GTA game for PCs and other platforms. As far as controls are concerned, we can say that more comfortable than in other similar games. The vast majority of buttons appear only when the user needs it. Gangstar Features New Orleans: There is a new system of hideouts that makes the game more realistic when shooting, as well as allowing the main character to stay alive; The icons in the game have been redesigned to make them more comprehensible than they used to be; Dozens of story missions to explore the game; Pretty good graphics as well as a soundtrack; The ability to create the main character based on your view A wide range of different weapons that will help you kill enemies without a doubt.
