Duolingo is an app whose goal is to help us learn languages in a simple and enjoyable way, so it doesn't look like we're learning, but having fun with another app or game from our Android device. The app will allow you to learn many different languages such as Spanish, English, French, Italian or Portuguese. You only need to choose the language you want to learn when you first start the app. One of the advantages of Duolingo compared to other language learning applications is its way of understanding the concept of gamification. Duolingo raises lessons in a way that we seem to be playing. Completing lessons will give us experience points, and mistakes will take our hearts away. Up until now, Duolingo has been trying to make our training look like a fun video game. And luckily he gets it. Duolingo is a great tool for learning any language in which we are interested, whether it is English, French, Portuguese, or whatever. In addition, it has a very bright visual style and is completely free.
