On the one hand, her mental health was a problem - especially throughout her tumultuous marriage to Prince Charles - she also felt very unhappy and unsatisfied in her life. Although the princess rarely discussed such issues (although she acknowledged her misfortune and other difficulties that came with marrying Prince Charles), many of them eventually made their way to the public. It painted Princess Diana in a new light - someone who was normal and just trying to survive the ups and downs of life. Check out the Cheat sheet on Facebook!
