Bridge constructor apk full version free download

Download Guests can't request updates! Bridge Constructor is a time-tested puzzle game on Android for fans of design and mechanism creation. In this game, the user needs to take seriously the construction of road bridges for different types of vehicles. The passage begins with a short briefing, which explains the basics of the gameplay and gives the first hints on the optimization process. Further, each level is allocated a budget and certain types of building materials, focusing on who should make the bridge. In each level, Bridge Constructor discovers new types of materials and fixtures, and the gameplay becomes more complex. Once completed, a special durability test is required. To do this, in the bottom right corner provided the arrow, clicking on which opens a list of available transport for travel. If the design looks more than solid, it is worth trying to use trucks, otherwise it is better to use cars, but then bonus points will not be credited. The graphics in the game are quite simple, but its more than enough for a complete immersion in the construction business. The interface is simple and simple, besides in the game virtual assistant will show you where to look for a particular item. To build bridges in different parts of the world, this game locations are very diverse, and look quite realistic. Special praise deserves full Russian localization, which makes the game more enjoyable. Bridge Constructor is not the best puzzle game for smartphones and tablets, but fans of really high-quality puzzles should take a close look at this fun quest.
