Financial Accounting by Dr. Suhas Mahajan, Dr. Mahesh Kulkarni Summary Book: There are a number of books on financial accounting available in the student market, but they do not meet the basic requirements of first year trade students of the University of Savitribay Phule Pune. This book is written in accordance with the revised curriculum prescribed for F.Y.B.Com. Semester - I students of The University of Savitribay Phule Pune from June 2019. We hope that this book will certainly help meet the growing demands of students of financial accounting with the Faculty of Commerce and Management. This book takes a modern and new approach to the study of financial accounting taking into account the specific requirements of readers and practitioners of the topic. All topics included in the curriculum are explained in simple but precise language. Equal stress is also given to necessary accounting theories and a wide range of practical take into account basic accounting concepts, accounting standards and, tabular and graphic representation of secret financial statements. Proper emphasis is also placed on diagrams and graphs to simplify complex theories and accounting practices. This book was designed to serve as a self-sufficient text for F.Y.B.Com. Semester - I students. This will certainly add to our satisfaction if this book will be more useful as a guide and reference to practicing accountants, professional managers, dynamic entrepreneurs and enthusiastic subject teachers. Audience Book : This book is useful for B.Com students. Table content: 1. Accounting concepts, conventions and principles and new accounting trends 2. Distribution of cash parts 3.
