The price of water service is very high because of this neighborhood to buy its water for the area it serves This utility company is very rigid and seems to ignore current business practices, as well as ethical and realistic practices. Voicemail is available for after-time needs and it includes the main number and the number of 3 people allegedly available for emergencies (last winter I had a terrible emergency regarding a water line bursting at night No call was returned about it) There is an online business that comes when trying to pay after the hour bill. However, I was told by customer service that this is not a valid service (couldn't find a place where this information was posted, and I was quickly told they didn't have an online service! Their main customer service number, after it lists the numbers available for an emergency, goes to voicemail This even press the number for 'urgent attention'! On October 11, 2019, I called and left my government debit card to pay my bill! Last night I checked and found that my payment had not deleted, I left a voicemail leaving this to be known, gave my phone numbers as I had when I paid my water bill Again, I press that it was urgent, I asked to be called if there was a problem! Not only did no one call one or the other time, I got up this this with my water service interrupted! I called the water service and the information they provided is almost amazing! I was told that they did not accept payments after the hour and rarely even checked their customer service after voicemail time!!!! I asked why they have voicemail for the main number if it is not answered! I was not given an answer! I immediately said that if this was the case, it should be posted on their website and their site! Again, no comment. This month I had a wafted anunown leak and my bill was \$40 more than usual at \$93.00. Then I was given a late delay Now it's \$102.00 and putting it back on was an extra \$77... Read moreDeired OutcomeBilling Adjustment I receive SSI. My next deposit won't be until November 3, 2019. By being forced to pay the full amount immediately (if I wanted water), I don't have enough money left to make it through the month My husband died, I'm disabled, and I have no way to get extra income for the rest of the month. I have not been given any help, even though I paid my bill on their line which is listed with urgent. I want the \$77 cut fee returned, help with the water leak outside as well as fair services....
