Super Mario Run is fun? The answer is, it's a lot of fun. However, just using Parkour to categorize doesn't seem to fit. Because Super Mario Run is more of a puzzle than the average parkour game, and it's not that hard. The work of the game is really very simple, Mario is automatically forward, short jump, long press on high point in the traditional Super Mario Bros. series of people tortured to death 70% of monsters can be automatically avoided, compared to the platform Work games simplified a lot, but the complexity of the game has increased just does not decrease. In order to infuse the gameplay that simplifies and weakens the game, the game designer has developed a series of paving gadgets: the front arrow grille, which can stand further above; a lattice arrow that can jump backwards; Pause in the aforementioned pause of action and so on. These devices may not be the shortcut that makes it easy for you to cross the border. Instead, you don't want to be able to close those floodgates. Game designers at the level of management design are really excellent, the games of six worlds, a total of 24 minor, each level can give people completely different feelings, sprint, climb, fly through the plains, deep caves, Explore the castle, these rich adventures will not be lost due to the simple work of fun, but because of the wonderful level of layout, people can experience the charm of each of the different worlds. Although most of the monsters in the game can automatically roll over, there are two more chances to die again, but it is again a goodwill trap. Because in some places you have to use the impulse of trekking monsters to jump up, after each death, bubble to send you back, rather than give you a chance to revive, as this is the one that allows you to think about using this mechanism to maximize access to gold opportunities. Because of these settings, each of your actions, your jump, is no longer limited to avoiding monsters and rocks, more to better adjust your own pace of progress, and better the mystery of the customs clearance card issue - yes, that doesn't mean you avoid all the risks that you can get the color of gold needed for customs clearance, every gold coin for you through continuous thinking, analysis, gain experience, gain experience If you want the first customs clearance to get all the gold color coins, it is basically impossible. These exquisite level designs naturally raise the complexity of the game, but whenever you go through a level you will experience hearty pleasure as you will know that this is not your happy clearance, but through hard work and by virtue of your own strength Only customs clearance, gives a sense of accomplishment not the usual Parkour game can compare. In addition to major world tours, the games include rallying and building a system that also gives players the joy to get around. Speaking so much, Super Mario Run, like Nintendo first hand to test the water, the quality far exceeds people's expectations, compared to others from the fully portable fried rice mobile platform, which is new to the mobile game maker just industry conscience, if you want to feel the charm of this classic IP in the mobile gaming platform, it's definitely a good choice, so that more players like the game can play such a good game. In this game, Mario advances constantly and you just have to touch the screen to control it. Take action at the right time to jump in style, perform aerial whiskers or wall jumps, recover coins and get to the finish line! Super Mario Run is free to download, and once you buy the full game, you can access all the game modes. No additional payment is required. Currently, there are thousands of exclusive titles released on Nintendo's own portable consoles (Gameboy, Nintendo 3DS, Wii U or Nintendo Switch.), Super Mario Run is their first game to be released on various hardware. This is a positive step that the company plans to invest in the development of mobile games. The game is currently available for free on Android and iOS with some In-App Purchase (IAP) packages. In this article we will bring you the latest version of the mod Super Mario Run (all content is unlocked). Of course, it comes with a detailed tutorial on how to download and install this game easily on any Android device. Download Super Mario Run Mod All World UnlockedSome Key FeaturesSuper Mario Run is no longer nintendo's only game on the mobile platform. After this game, they released Animal Crossing Pocket Edition and most recently Dragalia Lost. However, there is no doubt that Super Mario Run is Nintendo's most successful product in the mobile market. The game has now received 50 million downloads worldwide that is also at the top of the Select Editor's list on Google Play and the App Store. Before you show you how And install Super Mario Run Mod The whole world is unlocked, we hope you enjoy when exploring the interesting features belowAn Infinite Run - THE RPG game on MobileYour Challenge in Super Mario Run is control of Mario, who is a plumber who overcomes obstacles and challenges to reach the final destination of each level. Your main goal is to collect all five coins accidentally placed on the runway. The game reminds us of Endless Runners on mobile games like Subway Surfer, Temple Run... But there's a little bit more. Instead of running to death, Super Mario Run has a stop point. The game is divided into several stages of worlds that you need to complete the tasks to pass Stage.You may be interested in Grand Theft Auto v APK on the androidEach stage in the game is divided into three levels including light, medium and difficult. You have to finish all of them if you want to unlock a new world. The complexity of the screen is assessed by the level of complexity of obtaining coins. On a hard level there are stages where you play only a few times, you can not collect five coins and do not know what you missed. They are located in hidden places or over where you can't see without using a really high jump. Easy to control. The game control system is relatively simple, in which you can do everything with one finger. Jumping skills are the most important. To jump over obstacles, you need to touch the screen slightly. If you want to jump higher, keep it longer. If you're still not tall enough to touch the coin when you're in the middle of the air, tap the screen again. It'll push you a little higher. Just like classic Super Mario games, you need to control Mario through obstacles and touch coins to collect them. The game is a little different from the classic Mario that we played before. Instead of trampling and killing enemies, 70% of them can automatically pass without affecting your character. Unlocking new symbols. If you are bored with your character and not satisfied with his abilities. You can unlock a few more characters. In Super Mario Run, Nintendo brings a range of options to unlock new characters, all of which have appeared in the Mario series. Each character has their own abilities. For example, Princess Peach can swim, her brother or Luigi, a plumber can jump very high. Currently, the game has 11 different characters available, from which you can choose. These are: Mario, Luigi, Princess Peach, Princess Daisy, Toad, Toad, Yes!, Red Yes!, Blue Yoshi, Violet Yes! and Yellow Yes!. Of course, some characters are not available at the beginning and you need to unlock them with coins. Collecting coins Recognize a lot of coins is an important part of every game. Sometimes, coins are not available to you to touch. In some cases, you need to small box or bricks to find them. Coins also often appear under the that make players feel concerned if they jump down. You can slide down the hole and take the coins and then go to the wall and run. Call Coins Purple or Pink. They can be found in places you cannot predict, such as on a high or deep pit. You have to be smart and have good jumping skills to get them. Once you have earned all the pink Challenge coins, you will unlock the purple coin in the game. More new challenges, more fun. In Toad Rally, you can compete with other players. To play Toad Rally, you will lose the money earned in the World Tour. But in return, you get more toads to build the Mushroom Kingdom. The more toads you have, the bigger and richer your kingdom. You can build houses for them and they will create coins every day to repay you. The game sometimes appears red blocks. If your character stands on them, he will stop running. You can use this time to relax for a while and watch obstacles and enemies ahead to find the best game plan.3D graphics and great sound. The graphics of Super Mario Run are very good, but not so noticeable compared to other blockbuster mobile games. In our opinion, this is reasonable because it makes the game easier and can work well on low class devices. The game retains the simplicity of the design, similar to the first version on the company's gaming machine. It doesn't bring back a lot of memories and emotions to the players. In this mobile version, Nintendo has updated many features, adding new levels and new characters to add to the challenge and new experiences. The sound of the game is hilarious and entertaining. You should use headphones to enhance the gaming experience. What else is in Super Mario Run Mod?
