ProsSweeping Content Library: Netflix is increasingly looking at original content such as House of Cards to attract and retain subscribers. Along with original shows, Netflix's expansive catalog includes movies, TV series and documentaries. Mobile access to the Netflix catalog: With the Netflix app, you can stream on demand from the Netflix library to your phone. The app looks and behaves in much the same way as the company's smart tv app. And Netflix syncs your browsing progress on different platforms, so if you pause the show on your TV, the mobile app will display the name and allow you to pick up where you left off. Useful recommendations: Netflix triangulates between your streaming history, any ratings you've nominated, and Netflix members with similar tastes to offer shows and movies that might be interested in. For \$7.99 a month, you can watch unlimited movies and shows in standard definition on one screen at a time. \$9.99 per month gives you unlimited high definition movies and shows on two screens. For \$11.99, you can view Ultra HD content on four screens at a time. Watch offline: With the Android app, you can download shows and movies to watch later. Not everyone in the Netflix library is available, but if you see a download icon next to the title, you can save it to your phone for viewing later. Widely available: If you have an Internet-connected device, you can watch Netflix. The service is available on smart TVs, media players, game consoles, Blu-ray players, mobile devices, as well as on Mac and PCs.Profiles: You can create up to five profiles for family members, including a Kids Profile that filters age-appropriate content for children 12 years of age and younger. SEE: The best mobile app to watch VideoConsContent is moving in and out with a little warning: Netflix's content library is always evolving, and some websites put a fair amount of effort into monitoring what's in and out every month. While the content of the rotation ensures that you always have something new to look at, it also means what you hope to look at in the future may disappear by the time you're ready. Bottom line With Netflix's Android app, you can browse through an extensive collection of on-demand movies and shows and watch video on demand on your phone. Just move fast in case your choice gets shuffled out of rotation. Netflix for Android delivers on the phone a wide collection of movies and TV shows of the company.
