Turbo3.Leaf\_Spy\_Pro Keywords:turbo3.leaf\_spy\_pro, tools, leafspy Version: 0.40.107 (107 code) Dev: SPA System Partner GmbH and Co. KG Requirement: Eclair 2.0 API Level 5 or higher Updated: 2019-01-01 Size: 2.30 MB (2416907 Byte) MD5: 0c7356cc7d0469c357c793756f5819c3 Cpu: armeabi Screen: SMALL The Leaf Spy Pro app allows anyone with a Nissan Leaf electric car, Android device with Bluetooth and supported ELM327 OBDII Bluetooth adapter the ability to control your battery and other vehicle information is usually visible only to the dealer. Due to the recent cost reduction (and f - Bluetooth 4.x LE support LELink and PLX Kiwi 3 OBDII adapters - Server Support - Efficiency Schedule - Headlight and Internal Light in/Off Settings - Clear Special P0AAA1 DTC - Engine Display and Inverter Temperature - More Accurate Temperature Ambient - Tire Pressure in kPa Units - Display ECU Version Corrections - See The Built-in Charge Story for a list of all changes Download 35:21:96:0E:4E:8C:B0:5F:1B:D5:4D:8D:8A:2B:9E:0C:7D:B0:43:83 CN-James Pollock, O'WattsLeft, C'US Other Leaf Spy Pro APK version for Android 2019-01-01: Google Play Version 2019-02-18: 2016-05-11 : 2019-03-05: Latest Update Leaf Spy Pro app allows anyone with a Leaf Nissan electric car, Android device with Bluetooth and supported by ELM327 OBDII Bluetooth adapter to monitor their battery and other commonly visible vehicle information only by the dealer. due to recent cost reductions (and features) Many cheap elm327 OBDII Bluetooth adapters in Asia no longer work with the sheet and are presented as version 2.1. - Battery energy level in GID and kWh - energy intensity counter (resolution Wh) - SoC Graphics display, GID and DTE codes (empty distance) - Remaining distance indicator (mile/km) in case (low battery warning, very low battery warning or reserve) based on the user's choice of USK energy efficiency. AllThe Ages Leaf Spy Pro app allows anyone with a Nissan Leaf electric car your battery and other vehicle information are usually only visible to the dealer. Ties Links The recent cost-cutting (and reduced features) of many of the cheap ELM327 OBDII Bluetooth adapters from Asia no longer work with the sheet and report themselves to be version 2.1. The previously recommended Bluetooth Konnwei KW902 OBDII adapter is also no longer recommended as a batch of defective ones have made their way to market. They will basically brief your can bus sheet (or any CAN bus they're connected to). But when removed, it does not seem to cause any long-term damage. With the release of version 0.39.97 LeafSpy Pro now supports two Bluetooth 4.x LE approved adapters. Recommended is LELink available from Amazon. Bluetooth 4.x LE has the advantage that you don't need to be paired and below power from both android devices and leaves. LELink is highly recommended and also works with the iOS version of LeafSpy Pro. The built-in help file is available as a PDF by sending an email with the subject of Android PDF Help to WattsLeft.meter@gmail.com Information displayed by Leaf Spy Lite and Leaf Spy: each Tension of 96 pairs of cells (stressed, if the shunt is active) Minimum, medium, maximum voltage of the cell pair Histogram of the voltage of the pair of cells Battery temperature readings (4 sensors for models 2011/12, 3 for models 2013) Assessment of the battery Ahr (this will be the demise with age and is an indication of the Remaining Capacity) VIN Odometer Number of Fast Charge Connections Number of L1/L2 Charges EVSE Max Available Amplifiers EVSE voltageAdditional Information displayed By Sheet Spy: Battery Energy Level in GID kWh- Power Meter (Resolution Wh) Graphic Display SOC, GIDs and DTE (Distance to Void) , Very Low Battery Warning or Reserve) based on the user's selected energy efficiency Graphic battery temperature display with mines, avg, maximum temperature tire pressure of each of the four tires with low pressure warning and delta pressure alert warning (at the moment only for the 2011-2017 Leafs) Ambient Temperature' Logging feature that records most of the data and additional GPS IN THE CSV file, which can be easily imported into the Excel. The Pro version adds the ability to perform functions that normally require a dealer visit. at the moment only for 2011-2017 Leafs) - the possibility of resetting DTCs from the selected time mark ECUs- Changed era from integrator to floating point number with millisecond resolution (e.g., 1527785773.141). - Fixed the error in the initialization of the maximum Guides for the 2018 Leaf. This caused % Gids to be infinite.- Fixed error when selecting BMS only and Motor/Invertor-only mode that caused the application failure.- Fixed the bug that prevented data when in BMS only or Motor/Inverter only mode.- Added number of records written to log file as one of the items that can be monitored at the top of screen 1. 10 UAH. Other services 90 UAH. Other services 250 UAH. Other services 500 UAH. Other Services Contractual Other Services Contractual Other Services 150 UAH. Other services Pro app Leaf Spy allows using the electric car Nissan Leaf, Android device with Bluetooth and supported ELM327 OBDII Bluetooth adapter the ability to control their batteries and other information about the car is usually visible only to the dealer.Due to the recent cost reduction (and reduced sign), many of the cheap adapters ELM327 OBDII Bluetooth from Asia no longer work with leaves and inform themselves version 2.1. Previously recommended Bluetooth adapter Konnwei KW902 OBDII is also no longer recommended as batch defectives have not made their way to market. They will basically lock down the CAN tires of your Leaf (or any CAN tires they are connected to). But when removed, it doesn't seem to cause any long-term damage.With the release of version 0.39.97 LeafSpy Pro now supports two Bluetooth 4.x LE approved adapters. The recommended one is a LELink available from Amazon. The Bluetooth 4.x LE has the advantage of not needing steam and less power from both android device and Liszt. LELink is highly recommended, and also works with the iOS version of LeafSpy Pro. Sensor for 2011/12 Models, 3 for 2013 Models) - Battery AHR Rating (this is with the age of demise and is an indicator of residual capacity) and kWh' Floating Power Meter of Use (Resolution Wh) - Graphic DISPLAY soC, GID, and ODD (distance to discharged) - Remaining distance meter (mile/km) Event (Low Battery Warning, Very Battery Discharge Warning or Reserve) based on the user's chosen energy efficiency- Graphic display of battery temperature with mines, AVG, MAX temperatures in tires each of the four tires with low-pressure warning and delta pressure warning alarms q ambient temperature registration function that records most data and optional GPS location in CSV file that can be easily imported into Microsoft Excel. The pro version adds the ability to perform functions that normally require a visit to the dealer. To let your sheet know the correct location of each tyre on the car) - The ability to reset fault codes from the selected EBU Read more information about Leaf Spy Pro APK q Mod APK Leaf Spy Pro APK q Mod v 0.45.119 Spy Leaf Pro APK q Mod v 0.41.111 Leaf Spy Pro APK q Mod v 0.41.110 Spy Pro APK - Мод V 0.41.109 Лист Шпион Pro APK - Мод v 0.40.101 Лист Spy Pro APK - Мод V 0.39.97 Лист Шпион Pro APK - Мод V 0.38.80 Лист Шпион Pro APK 37.77 Leaf Spy Pro APK - Мод v 0.36.68 Leaf Spy Pro APK - Мод v 0.35.59 Leaf Spy Pro Mod и Unlimited Money (Modapkandroid.ru) Modapkandroid.ru)
