Acceptance of life passages is crucial for aging with dignity, self-awareness and reliability (You can't death) . There are serious consequences for bad behaviour and irresponsibility; and yet family and friends can offer a second chance. It takes courage to admit mistakes and apologize. Ben jhailey@hotmail jhailey@hotmail Kalmen Douglas) is a successful car salesman who gets his annual physical. His doctor tells him that his ECG indicates that he may have heart problems and orders further tests. Six and a half years later, Ben walks around New York to meet his daughter Susan and her son in the park, and he can not help but notice an attractive young woman. He chafes at being called Granddad and is pretty self-conscious about being older, since he is almost 60. They go to meet his ex-wife for lunch, where again Ben spies on another attractive young woman. Ben goes to visit his rich girlfriend Jordan, who he admits is beneficial to him because her father should be able to help him regain his place in the car business community. As we learn, in recent years Ben has been implicated in serious financial scandals that have torpedoed his professional reputation, and now he is trying to use Jordan's influence to secure real estate for a new dealer. At this point, Ben has agreed to take Jordans' apparently 18-year-old daughter Allison to Boston to attend the college he attended as a young man. Ben is not only a graduate, but once so rich that his donations prompted the school to name a library in his honor, so Jordan suggests that he will ensure Allison's admission to school. During the trip, Ben asks Allison about her penchant for drinking at a young age, and she counters, indicating that he is cheating on her mother. They agree not to badger each other and enjoy the weekend on their own terms. As soon as they arrive on campus, Ben quickly encounters an arrogant student who insults him, resulting in insults between them. Campus security intervenes, confirming that Allison is indeed 18, and warning Ben to stay out of trouble even if he is a notable graduate. Ben meets Daniel, a student appointed by his guide, while Allison goes on tour with a lacrosse player. Ben returns to Daniels' dorm and makes a quick read about him as a romantic loser. Telling Daniel that he needs to take advantage of his opportunities, Ben continues to chat with the two girls in the audience and gets himself invited to a party where he tells Danielle that he too was a clumsy, working-class child in college. He says things changed when he was in love with the girl and then found out the other guy seduced her in front of him. After his initial shock, Ben learned from the guy that she enjoyed completely tense coitus, and that gave him the confidence to chase her so that he soon enjoyed rough sex with her. Ben returns to his hotel where he sees Allison in a bar being regaled by a lacrosse player. Ben pulls Allison aside and tells her that worth to get a little out of a sexual deal that's about to happen. After dropping the player, then, Ellison keeps talking to Ben about how Shes has had a lot of sex since she was 14, but none of it has been so cool. Ben advises her that she should take more control over the guy guy She has sex, and show her partner what she wants. Allison asks Ben how he loves sex with his mother, and he coolly replies that she can at least get it. Extremely soon after, Ben asks Allison to show him what she wants as they make love in their hotel room. Ben calls Allison the next morning out of bed. She's already on her way back to New York, but says she has fun with Ben and that everything is copacetic. They both agree not to tell Jordan that they had sex. Back in New York, Ben gets the good news that his new dealership will be approved, and he joins Jordan to celebrate, along with Allison, who has somehow already been accepted to college. Ben joins the two in Jordans' posh apartment, only he is upset that Ellison does not show much interest in spending more time with him. Away from Jordans' ear, Allison thanks Ben for helping her over the daddy thing and says she used his advice on the next guy she had sex with, with whom she was able to mount with confidence and really enjoy sexual intercourse. For no apparent reason, Allison blurts into Jordan that they had sex while visiting Boston and is leaving. Ben goes to his daughter to explain his pathetic situation. Susans' husband walks around the room, objecting to the way Ben lived his life and had such a negative impact on her. Ben comments to Susan that he tried to shield her from the bad aspects of his past and then with the whole family asks her if she can give him money. Upon learning that the alleged new dealership had failed, Ben meets with his private banker, who informs him that his bank should release him as a client, given that they can no longer ignore his corruption and losses. Ben becomes angry, but manages to bring home a woman he vaguely knows because she is Susan's girlfriend. After their nights together, the woman asks Ben about his health and he tells her that he hasn't gone back to the doctor for six years. As a result of sleeping with this last conquest, Ben misses the birthday of his grandchildren. After that, brings a cake to the house Susans and plays video games with her grandson, but once again asks her for money, which causes her outrage. He even goes to visit his ex-wife and asks her for money; while they are friendly and she has become quite successful in real estate, she does not support it. As Ben learns from his partner, he really managed to turn all his friends into enemies. Ben packs his cute digs and moves into a humiliating apartment, where he is unable to pay his rent for two months. Susan appears, furious to him, after learning that he not only slept with his girlfriend, but has since ignored her. she asks him to seek professional help for all the trouble Heas put himself through, he refuses and she then refuses to see him again. Ben returns to college town where he took Allison because he still has one friend there, college college named Jimmy, who now owns a greasy spoon that is popular with local students. Ben asks Jimmy to give him a job, and he agrees. Ben soon wonders why Jimmy is not chasing girls from college, and an old friend explains that after high school girls are not so attractive. Besides, he has a wife at home with whom he is happy. Allison comes to the diner once and is suspicious that Ben followed her. He explains that he's not chasing her, he's just trying to get back on his feet. Jordan soon calls Ben and tells him that he has to leave the city because he inconveniences her daughter, and she threatens that her father will cause him even more damage. Daniel invites Ben to a party, where the elder reflects on his sad situation with Allison and tries to sympathize with women. Ben later asks Danielle's girlfriend that she is coming out of the deal and she abruptly closes it, admitting that he goes to her, asking if he is not too old for such behavior. She says he doesn't look like Daniel is smart, sweet and funny, but Ben counters that in fact he once was, only it's not the last. On the way home from a party, a gunman approached a drunk Ben and beat him and ordered him to leave town the next day, saying that Jordans' father had sent him. Jimmy tries to comfort Ben, who mourns how much he lost in his life because of his erroneous transgressions, and then collapses. Ben wakes up in the hospital with Susan next to him, and apologizes for the way he treated her friend. Later, the nurse tries to tell him that he has a bad heart, but he insists on going against medical advice. Ben stops at daniels' building, and they awkwardly admit that Ben was depraved with his girlfriend. Ben tells Daniel to hold on to her if she's good for him. Ben comes through his ex-wife as he walks back across campus, sitting on a bench where they first met in their youth. She asks about his heart tests, and he admits that on the day he first had problems more than six years ago, he immediately went out and cheated on her with some random woman he had met. He explains that he felt such a success in life and business up to this time, doing television commercials and advertising himself so honest, and after that first case, he just kept cheating on his marriage and his finances because he didn't want to deal with compromises before his death. He never expected to grow old, he never wanted to become invisible. With genuine concern, Ben's ex-wife tells him that she can take him back to New York. She goes to her car, leaving him sitting on a bench. He looks at her, and just then the college girl walks in front of him in the opposite direction. Ben gets up, looking forward, must decide in side to go. Go. Go.
