It chronicles his leadership after the deaths of his parents related to the cancer of his younger brother Christopher Toph Eggers. The book was a commercial and significant success, reaching number one on the New York Times bestseller list and being nominated as a finalist for the Pulitzer Prize for General Non-Fiction. Time magazine and several newspapers dubbed it The Best Book of the Year. Critics praised the book for its wild, lively prose, and it was described by The New York Times as big, adventurous [and] manic-depressive. The book was chosen by The Times as the 12th best book of the decade. [1] Important characters Heidi McSweeney Eggers-Eggers has to deal with the mother, a woman who suffers from colon cancer while raising her children. He dies in January 1992, relatively early in the book. John's Eggers - The father of the Agers was a heavy smoker and drinker. When he was a kid, Eggers remembers his father as an angry drunk, often chasing after his kids, trying to catch them so that he could spank them. Like Eggers' mother, her father has a modest role in the book, as he died on November 1991 before Eggers' mother. William de Eggers - the oldest brother of eggers. He lives in Los Angeles, and doesn't mention much in the book. Elizabeth Anne Beth Eggers - Sister of Eggers . Beth took care of her dying mother and helped Eggers raise the toff to her younger brother after the death of her parents. Christopher M. Toph or Tophier Eggers-Eggers' younger brother, whom he must finish following after the death of his parents and his older siblings are unable. Shalini: In one part of the book, Shalini falls from a building courtyard and should remain in the hospital until she recovered from a coma. Eggers visit him often in the hospital. When not meeting him, Eggers goes to the pub to drink and 'check out' the girls. Sari Locker - a sexologist with whom eggers fantasize about having sex. Marny Requa - After Eggers makes a magazine title, she becomes good friends with Marny, a girl with whom she works. She sometimes imagines having sex with her, but Marny always gets Eggers' mind from sex and back to attention with the magazine. Kirsten-Eggers and Kirsten remain friends after their relationship ended. Kirsten and Beth Eggers help rear toffees, even after Kirsten and Beth move two hours away from Eggers and Toff. The primary story of the themes book is eggers learning to be both brother and toffees' parents | It starts out with Eggers, Toph, and Beth Tackle Mother and father have stomach and lung cancer diseases, respectively. After the deaths of their parents, the lives of Eggers, Toff and Beth become complicated. All three children move from Illinois to California. Beth lives on her own at first, and Toph becomes the responsibility of Eggers. Eggers, only a man in his early 20s, raised a child as if he were his own. Eggers' lives now want to do things many can involve 20-year-olds. For example, Eggers can't stay out of the house all night at the bar and take home a different girl every week, something he talks about in his book in detail. With the help of a legacy and Social Security, eggers and rented apartments in the Toph neighborhoods where Toph can go to private schools and Eggers can work on their magazine venture. Eggers are sometimes self-conscious about the cleanliness and concerns of their various homes that others will accidentally find them unfit for parents tof, but these images counterbalance them with fun activities including toff (Frisbee, for example) and driving for cooking, refinement and toffees. Eggers talks well about how much he loves and cares for Toph. Eggers says he would kill or severely hurt anyone who hurts Toph. Also, all the times Eggers leaves Toph at home with a babysitter, Eggers is constantly wondering whether or not Toph is ok. Summarizing in Lake Forest, Illinois, Dave Eggers and his siblings, Bill, Beth and Toph (who is 13 years younger than his next eldest brother, Dave) endure the sudden death of their father due to lung cancer. His mother dies a month later after a long struggle with stomach cancer. Later, Eggers, Beth and Toph move to California. Bill, who doesn't play a big role in the plot, eventually goes to Los Angeles. The rest of the family live in the San Francisco Bay Area. Eggers and Toff seem to live on their own in a shabby, indomitable fashion. Eggers struggle between moments of feeling that their approach to parenting is calculated and brilliantly designed to accommodate Toph well, worrying that his hands-on approach and commitment to individual projects will make Toph Kusmys. Eggers' own efforts to lead a normal life as a young adult often involve fairly ordinary encounters with women and alcohol, but are portrayed as somewhat surreal by the author. Due to his parents' death and his duty to take care of Toph, he seems robbed of his youth, and it fuels his pursuit of sex and negligence. Eggers and her friends organize an independent magazine called May in San Francisco and become engrossed in the Generation X subculture. Much of the magazine's history has been featured in the book. Eggers also audition for MTV's Real World in a development on the subject of exhibitionism. Real-life aspects would probably have been the original research in this section Please correct it. Eggers occasionally had compression time, for each other in time close to events in the book than they actually were to increase the flow of the story. Eggers sometimes acknowledges his existence within the book at several points while talking to him has lapses characters into breaking the fourth wall. In these cases, characters often abandon their distinctive real-life personalities and characteristics, becoming tools with which agers can analyze and analyze their thoughts and feelings in vehicles for internal dialogue, or self-criticism. Eggers explains which parts of the book were fictional or exaggerated during the book and preamble. One critic has said that much of Eggers' memoir invites the title to discuss how the reader is to engage with the book. In this scene, the title, as a so-called allographic paratext, is seen as an invitation to the reader not to dismiss the emotionally tinged style as bathos but to accept the premise that this book is, in part, a textual shock and thus asks the reader to empathize with the emotional sincerity found in the book. [2] The preamble and addenda book includes long preamble and acknowledgement sections, a list of suggestions to help better enjoy reading large sections of the book (including many tips, not bothering to read large sections of the book), and a guide to its symbols and metaphors. Later the printing of the book also includes an appendix called Mistakes that we knew we were making, detailing some deliberate omissions and overall events that made the book flow flow flow more easily. Film adaptation In 2002, New Line Cinema bought the rights to adapt the book to the film. The screenplay was written by novelist Nick Hornby and screenwriter DV Divivisni. In a 2007 interview, Agers told Entertainment Weekly that a version of the film is unlikely to be seen, saying the studio option on the film had run out.
