The Office of Primary Health Care (BPHC) of the Office of Health Resources and Services (HRSA) is responsible for effective and effective oversight of the Health Center's program. Compliance guidance is the primary resource for helping health centers understand and demonstrate compliance with the Health Center program. See the Health Center's Compliance Guide (last August 2018 update) of the 2018 Bipartisan Budget Act Changes to Section 330 of the Health Care Act (42 U.S.C. 254b), which authorizes the Charter of the Center for Health Care Program. The Office of Health Resources and Services (HRSA)/Bureau of Primary Health Care (BPHC) has revised the Health Program Compliance Manual (Compliance Guide), which was originally issued in August 2017, subject to amended charter. View a list of changes and the relevant chapter and section of the Compliance Manual (s) (PDF - 583KB). Refer to the revised charter of the Medical Centers Program for current statutory language and detail all legislative amendments. Useful Resources Frequently Asked Questions Are There Questions About the Health Center's Compliance Program Guide? View frequently asked questions. The Library of Progressive Conditions of Action When HRSA determines that a medical center does not demonstrate compliance with one or more health center requirements, the condition (s) is placed in its Premium/Appearance Notice. The Health Center program uses a library of standard conditions that follow its progressive policy of action and process that is fully consistent with the Health Center's Compliance Guide. See the library of progressive conditions. The Health Center Website Visit Protocol (SVP) is a tool to assess compliance with the Health Center's requirements during operational visits to the site (OSV). SVP is designed to provide HRSA with the information it needs to perform its oversight responsibilities using a standard and transparent methodology that is consistent with the Compliance Guide. View the protocol of visiting the site. A summary of HRSA's comments and responses to the HRSA Health Center Compliance Guide announced the availability of the Health Center's Public Discussion Guidelines For Public Discussion in August 2016. Written comments were accepted until November 22, 2016. Individuals and groups submitted more than 700 comments. After careful consideration and consideration of all the comments, the HRSA has made a significant number of changes to the Compliance Manual to include proposals and requests for further clarification. View resume (PDF - 791MB) comments for SECTION and HRSA's chapters and responses to these comments. As the Compliance Manual was revised following the publication of this summary, comments and summaries of responses noted and italics no longer reflect the current language of the Compliance Guide. Primary Health Care Digest Looking for Updates and Other Information Related to the Regulatory Compliance and Implementation Guide in HRSA Monitoring Activities. Sign up to receive a newsletter every week in your inbox. Do you have a question about the Health Center Compliance Guide? Under Decree 13891, the information on this website does not bind the public, except where it is permitted by law or included in the contract. Visits to the facilities of the Office of Resources and Health Services (HRSA) support effective oversight of the Health Center's program. Operational Site Visits (OSV) provide an objective assessment and verification of each Health Center member or doppelganger in accordance with the legal and regulatory requirements of the Health Center Program. In addition, HRSA conducts site visits to evaluate and verify similar initial applicants for health center compliance to inform the initial definitions of the assignment. The Health Center (SVP) site visit protocol is a tool for assessing compliance with the Health Center program during operational visits to sites (OSVs) and similar initial visits to the site. SVP is designed to provide HRSA with the information it needs to fulfill its oversight responsibilities using a standard and transparent methodology that is consistent with the Health Center Compliance Guide. Download the entire SVP (PDF - 6.17MB) or download specific sections of SVP: The following tools are available to assist medical centers in preparing for their visit to the site: Frequently asked questions have questions on the protocol of visiting the site? View frequently asked questions. The Health Center's Health Center Guidelines for the Office of Primary Health Care (BPHC) of the Office of Health Resources and Services (HRSA) are responsible for effective and effective oversight of the Health Center's program. This includes ensuring that health centers comply with applicable regulatory and regulatory requirements of the Health Center program. Compliance guidance is the primary resource for helping health centers understand and demonstrate compliance with the Health Center program. See the Health Center Compliance Guide. The Library of Progressive Conditions of Action When HRSA determines that a medical center does not demonstrate compliance with one or more health center requirements, the condition (s) is placed in its Premium/Appearance Notice. Uses a library of standard conditions that a progressive policy of action and a process that is fully consistent with the Compliance Guide. See the library of progressive conditions. 2019 SVP: Summary of updates 2019 SVP updates have been made to better ensure that reflects ongoing oversight processes and timelines, provides on-site reviewers and HRSA with all the documentation required to adequately assess compliance, and provides additional clarity on several issues and process descriptions. See summary of SVP 2019 updates (PDF - 5.9MB). Archival protocol of visiting the site Need to access an archived copy of the Protocol on visiting the site, which was from April 2019 to February 2020? Submit a request through Health Center support and select the type of release: A follow-up guide. Under Decree 13891, the information on this website does not bind the public, except where it is permitted by law or included in the contract. A partner in the firm's health practice group, Molly advises medical centers on the management of clinical risks related to employment and the workforce, with a particular focus on professional responsibility, the Federal Caste Claims Act and HIPAA. From her experience as a private attorney and staff attorney, Molly is aware of the importance of managing liability and risk issues in mission-driven organizations. (Full biography) TED WATERServing as the firm's managing partner since 2003, and a member of the Health Care Act and federal practice grants since 1992, Ted is a national body in the field of federal grants, especially in health and public works. He advises clients on all aspects of the program's requirements, including cost recovery, management, grant management, cost reporting and administrative matters, and regularly handles complex issues such as government audits, internal investigations and litigation. Ted's priority is to help each organization accomplish its mission by offering a hands-on, down-to-earth lawyer and to ensure that legal challenges don't detract from that attention. (Full biography) MarciE ZAKheim Partner of the firm, Marcy specializes in health law, especially in the field of federal grants related to grant requirements and management grants related to the federal health center program. Medical centers turn to Marcy as a resource for knowing not only the letter of the law, but also the likely interpretation of requirements by federal politicians, including the Office of Resources and Health Services (HRSA). (Full biography) In August 2018, HRSA released the recently revised Health Center Compliance Guide, which is consistent with the Federal Tort Claims (FTCA), which examines the application and process. In addition, in August 2018, HRSA issued a recently revised Protocol on the Visit to the Operational Site, which complies with the Compliance Manual. Tips and health centres are responsible for meeting all the requirements set out in the manual. We also recommend reading the frequently asked questions of the Compliance Guide, the Library of Progressive Conditions of Action, and the Change Table, according to a chapter prepared by HRSA. Most Of the The HRSA Policy Guide is included in the manual, but several HRSA (PIN) policy notifications remain in place, including: service area closure, emergency preparedness, project scope and change request, project special services, and special grantees only for the public requesting changes in the application of the new population target group and all Single Data System Resources (UDS). An operational visit to the Website Promising Practices July 2018-December 2018 HRSA Health Center Operational Protocol visiting the site - From the end of August 2018 For more information, contact email protected at the bottom of the compliance page. (from the HRSA Primary Health Care Digest Newsletter)2019 Site Visit Protocol Update is now available for preview OF HRSA's updated site visit protocol (SVP) in response to feedback from stakeholders, including medical centers, strategic partners, a site visited by a panel of reviewers, and HRSA staff. There were no changes to the Health Center Compliance Manual or requirement. The SVP 2019 update is now available for public preview. It will be in effect for site visits that begin after Thursday, April 18.As, part of HRSA's commitment to continuous quality improvement, the updated SVP enhances clarity and continues to provide HRSA with the information it needs to perform its oversight duties using a standard and transparent methodology that is consistent with the Compliance Guide. Check out the summary of the changes and updates to SVP 2019 frequently asked questions. We understand how stressful it can be to prepare to visit your site, and we are here for you.
