## Rosewill challenger computer case

(31 Rating, Average 4.1) Image not available for Colour: Image not available for Colour: + EUR 97.81 Addl. CostList price EUR 57.70 Save 28%US\$49.99Get by Sat, Dec 26 – Mon, Jan 4 from Rowland Heights, California • New conditions • 30-day refund - Buyer pays back shipmentGood seen running in family! Inherited the design from Rosewill Challenger. Equipped with dual front fan with blue LED. Motherboard CompatibilityMicro ATX, ATX. TypeMid Tower. MaterialSECC case. Installing device 5.25 and HDD 3.5 free tools ensures a hassle-free experience. ROSEWILL CHALLENGER - BLACK GAMING ATX MID TOWER COMPUTER CASE The Rosewill CHALLENGER offers all the features most appreciated by DIY builders at an affordable price point, including impressive cooling capabilities, some 5.25 external drive bays & built-in drive bay 3.5 with screwless design, accessible I/O panel, advanced PSU design mounted below, and more. Take it today, and build your own power plant. EXCELLENT COOLING PERFORMANCE With the ability to support up to five fans (three pre-installed fans), Rosewill CHALLENGER creates heavy-duty airflow to cool down, even the most extreme gaming systems. The front mesh panel, along with air vents, provides extra airflow for maximum breathing ability. Front Fan Case Layout: One 120mm Blue LED fan (pre-installed) Rear: One 120mm fan (pre-installed) Top: One 120mm / 140mm fan (pre-installed) Side: Two 120mm fans (Optional) GREAT EXPANDABILITY With up to five internal 3.5 drive bays and two external 3.5 drive bays Rosewill CHALLENGER gives DIY builders the ultimate flexibility in personalizing their PCs. It is also equipped with three external drive bays of 5.25. In addition, up to seven expansion slots allow you to make better use of the expansion of your motherboard. DESIGN WITHOUT SCREWS FOR BAYS DRIVE The screwless design for all bay drives allows easy and fast installation. The included SSD/HDD 2.5 adapter allows you to easily install two 2.5 SSDs/HDDs into one HDD 3.5 slot. OTHER THOUGHTFUL DESIGN The above-mounted I/O panel offers one USB 3.0 port for superfast data transfer, two USB 2.0 ports, and audio out & Mic in jack. The advanced PSU design mounted below allows independent and optimized PSU cooling. PSU shock resistant bearings reduce vibration and annoying noise. Easy-to-clean dust filters keep your computer clean and dust-protected.
