Interactive reading exercise Detroit: then and now Level: Beginner/Elementary The American City of Detroit was like Paris, some people said. It had a big river, beautiful wide streets and important buildings. Then, in the 20th century, it was called the Motor City because of the number of car factories there. The workers at the car factories had good jobs and earned well. It was not unusual to own a home, a boat and even a holiday home. In the 1950s, new highways were built and many people were moved from the city centre to the suburbs. Life was good. But in the early 2000s, Detroit became the poorest big city in America. #english #outcomes #nationalgeographiclearning #readingpractice article from Detroit: then and now RESULTS National Geographic Learning 1.2K Добрый день! а есм м кого - нимдм аддю к Results from Intern.
