Published July 29, 2019, On July 29, 2019, Fazlul Haque Starts with Logitech® Wireless Illuminated Keyboard K800 NOTE: You can connect the device with a unifying receiver, in addition to that included in your product. You can determine if your Logitech devices are combined using this logo: If you purchased a spare USB receiver or USB receiver, and want to connect the device to the receiver, here's how: Connect the unifying receiver to the USB port on your computer. Click the connection button at the bottom of the mouse. Start the unifying software to pull the device to the receiver and follow the instructions on the screen. If you don't have Logitech Unifying software, you can download it. We automatically discovered your operating system. Please see The Downloads below Select OS (version) key Choose OS Version List Key Select OS (version) about MX 2 Connect now! Settings Connections Features Compatibility on the keyboard first setting Up Add more devices Select devices Select devices several key layouts in one shortcut keys and function keys distemper IE8/IE9/IE10 browser is no longer supported. Use your current browser to visit our website. The K400 Plus wireless touchpad presents its keyboard with a normal-sized layout and touchpad in a compact format. The concave keys are perfect for touch technology, and the soft stop gives you a quiet keyboard. The standard-sized touchpad gives you access to familiar scrolling and navigation gestures. Controls are at hand, with left and right buttons under the touchpad, while the volume controls are located above. For two hand controls, often preferred by people who use their fingers to navigate, there is a mouse button on the left side of the keyboard - move with your right hand and choose with your left. Step 1: Connect the unifying receiver to your USB port on your computer. Step 2: Pull out to remove the yellow battery tab. Note! Make sure the keyboard turns on/off in mode. The power button is at the top of the keyboard. The keyboard is ready to use. Fast and functional keys make navigation, media control, and keyboard function easier. Key Shortcuts / Function Back Home Change Program Menu View / Hide Desktop Increase Screen Window Multimedia Previous Track Play / Pause Next Track Volume - Fn+Insert: Puts the Computer to Sleep Fn+backspace: Print Screen Fn+Caps Lock: Scroll Fn+left Arrow Lock: Home Fn Right Hand: End of FnUp Arrow: Side Up Fn+Down Arrow: Side Down F1-F12 Buttons: Tap Fn+Backward Push Switch Between Turn and Turn Touch Panel, Clicking key and left mouse button to turn on the key you you you Also click in a comfortable two-handed navigation by pressing the left mouse button in the top left corner of the keyboard. You can also click by clicking on the touchpad surface. ScrollScroll with two fingers, up or down. Press the Fn key and drag your finger anywhere on the touchpad to scroll and move comfortably with both hands. Place the receiver in the battery compartment when it doesn't use the K400 Plus so it doesn't disappear. The K400 Plus includes a variety of features and just plug and get started. If you like customization and lots of features, Logitech Options is the software for you. Download and install software Options to do the following: Change the speed cursor and set up scrolling Watch video courses if gestures Create custom hotkeys disable and turn on the keys - Caps Lock, Windows Start, and more. Watch Caps Lock Low Battery Notifications and Warning Many other features are available: Download Logitech Options compatible K400 Plus keyboard works with both desktop and laptop computers, and is compatible with the following operating systems: Windows® 7 and later Chrome OS™ Android™ 5.0.2 or later keyboard features such as hotkeys and touch gestures vary depending on the system. It's quick to find out if your system settings are compatible with the K400 Plus. Logitech, with a combined wireless wireless technology, supports up to six unifying devices on a small receiver. Learn more about combining the K400 Plus is a comfortable, durable keyboard and just plug in and get started. If you are having problems or have questions about the product, Logitech is on hand to help. Visit our customer service, full support page. Customer support
