Players can choose between more than 20 Marvel heroes to create their own Avengers team. Iron-Man, Thor, Hulk, Wolverine and Nick Fury are just some of the popular characters you can add to your team. Each of them, of course, has its own special abilities for combat. Throughout the main Avengers Alliance campaign, you can participate in more than 60 different missions in which you fight hundreds and hundreds of enemies. While you will fight many normal enemies, you will also work in some of the scariest bosses of the Marvel universe like Magneto or Loki. Avengers Alliance is an entertainment game that, despite being a single player game, you can go on a mission with friends on Facebook over the internet. It also allows you to gain more experience and objects.
