kh18 Messages: 810 Joined: November 2009 I decided to take time today and deck the halls, I will go to the hospital on December 9 for a big hernia repair and maybe having a big infusion again just like resection surgery! I was going back and forth about decorating this year as the holidays would be spent recuperating and thought to myself why bother. BUT, I then realized that no matter what happens, I have to celebrate every holiday so that it is full. Maybe if I didn't have cancer, I could just let him pass by without all the hoopla. I remember 2 years ago, I wasn't sure how much more Christmas I would have so that year I made it special. Why didn't I think about doing it this year? I forgot so soon suffering 3 Christmases ago? Should I come to this point that I'm starting to fall into pre-cancer behavior. I can't do that, I need to remembe feelings and emotions and live every day like this is my last! So, Happy Thanksgiving to each of you, and whatever your plans, I pray that you enjoy every moment with your friends and family! Kathy By Jayme Richards Updated September 22, 2017 IMDB stands for The Internet Movie Database and is the largest collection of information relating to movies, TV shows, actors and producers available online. The site contains technical information about movies and TV shows, as well as ratings, discussion boards and trivia. The database is popular because of its extensive nature, in that obscure, indie or cult films are also available to search and x keep records. You can refer to movies by their IMDB number, which, thanks to the widespread fame of IMDB, can also be used on other websites. Visit your IMDB homepage by typing www.imdb.com into your browser's web address bar. Find the search box at the top of the web page. Make sure the first drop-off field is selected at all. In the field to the left of the field, all will include the title of the movie for which you want to find the IMDB number. Click Go when you're done. Choose the right movie or TV show from your search results list. Your choice is usually the first choice on the screen. However, if the movie you're looking for is more obscure or there are several movies of the same name, you may need to check the results for the right choice. A couple of ways you can easily find the right movie by determining the release date, country of origin or poster art. Look at the address strip in your browser when you're on the IMDB page of the correct movie. The URL will look like this: . An IMDB number is a number located at the end of the URL, including any zeros. Make sure you omit TT when it comes to room as well. The number can be used for a quick reference to a movie or for movies on other movie sites that use the IMDB numbers system. Breaking Bad debuted more than a decade ago, but television fans can't stop talking about it. The AMC drama told the story of Walter White, a chemistry teacher who receives a diagnosis of terminal lung cancer. He decides to collaborate with a former student, Jesse Pinkman, to start producing crystal methamphetamine to earn money for his family to live. Showrunner Vince Gilligan explained that the show was designed to turn Mr. Chips into a scarface, describing the loss of Walt's morals during his quest for power. There is no doubt that Gilligan has achieved that goal in five seasons. Ahead, five episodes of the series according to IMDb prove why fans are so obsessed with the show even years later. 5. 'Dead Carriages' - Season 5, Episode 5 Todd and Jesse Ursula Coyote/AMC RELATED: All The Heavy has been canceled after 5 seasons because Vince Gilligan believes that The Secret Materials Of Dragged On Too Long Watching Dead Freight is not for the faint of heart. The whole heartbreaking episode documents Walt, Jesse and Todd working together to steal methyamine from the train, using a complex, perfectly abmal scheme that comes down to the last second. The episode is heavy on action and suspense plus proves the depth of debauchery present in Todd. At the beginning of the episode, viewers see a small child on a motorcycle grabbing a tarantula. Later, just when the group thinks they're getting off the side of a train robbery, they notice that the boy has seen it all. Todd reacts by shooting him without hesitation. 4. 'To'hajilee' - Season 5, Episode 13 Walter White Ursula Coyote / AMC Many of the best episodes of the series came at the end as the story of Heisenberg's ultimate demise came together. In one of the latest episodes of Breaking Bad, Jesse works to find out where Walt has his money hidden so he can pick up one thing that matters to his former partner. He sets up a scam, making Walt think he has found the money and washes it into the desert and straight into the clutches of the DEA. Walt inspired Jesse through Todd's white relative, Uncle Jack. 3. 'Face Off' - Season 4, Episode 13 There to play on the words for the title Face Off, season finale of the fourth season. In this episode, Walter White finally defeats his former boss-turned-enemy, Gus Freen, by recruiting Hector Salamanca on a suicide mission in the nursing home in which he lives. Gus Freeing's face was torn off. 2. 'Felinea' - Season 5, Episode 16 Walter White /En) Ursula Coyote/AMC Series finale Breaking Bad completes the story in a suitable way. Walt comes out of hiding and returns to Albuquerque to tie the loose ends. He forces his former business partner, Schwartz, to help hide what's left of his money. Walt also visits his wife. and admits that he did methamphetamine because he loved it, not helping his family. Finally, Walt goes to Uncle Jack's house and kills everyone there except Jesse, who was in captivity. He helps Jesse escape before collapsing to the ground surrounded by methamphetamine equipment that changed his life. 1. 'Ozymandias' - Season 5, Episode 14 Hank Schroeder Ursula Coyote / AMC It's not easy to achieve a perfect 10 rating on IMDb, but Ozymandias, which some critics consider the greatest television episode of all time, managed to do so. The episode is packed with emotion and drama. The episode involves Walt and Jesse cooking methamphetamine in the desert through flashbacks. Hank was killed in a shootout at the same location where Breaking Bad's journey began. Walt tries to save his family again and completes the kidnapping of his child. He then calls home and clears Skyler of all wrongdoing, knowing that a phone call is being recorded. Reviewer Alan Sepinwall said: If you asked me what is the best hour of dramatic television ever, I would say Breaking Bad in Ozymandias and not think twice about it. Five months after the launch of the free streaming video service under the IMDb brand, Amazon is changing its name and adding a lot more video. IMDb Freevide is now IMDb TV, Variety reports, and Amazon plans to triple the ad-backed directory service over the next few months. To that end, Amazon has struck new deals with MGM, Sony Pictures Entertainment., and Amazon's Warner Bros. also plans to expand the service from the U.S. to Europe later this year. As before, IMDb TV is available as a free channel in the Prime Video app. Free streaming video services have been booming as studios are looking for new ways to monetize their catalogs back, and as media companies try to join the wireless cutting era without direct competition from premium services such as Netflix. Viacom, for example, has been pumping up classic Nick and MTV content for Pluto TV, which it acquired for \$340 million in March, while Roku is building more of its streaming software around free content from the Roku Channel.The challenge for Amazon will be figuring out how to balance the investment in IMDb TV with its already popular Prime Video service, which currently has more than 100 million U.S. subscribers according to one unofficial estimate. IMDb TV is an ad-supported streaming service that provides access to a wide range of television and film choices. The service is completely free, but there is no way to remove ads. If you prefer an ad-free service, IMDb TV is owned by Amazon, and some of the content on IMDb TV is also available via Prime Video. IMDb TV is a service from the Online Movie Database (IMDB) that provides free access to a large library of TV and ad-enabled movies. while Amazon owns IMDB, you don't need an Amazon Prime membership to use IMDb TV. IMDb TV Free, but you have to watch ads that are interspersed with TV shows and movies on duty. You can access IMDb TV through a web browser on your computer or an app on your phone or a streaming device that is also free. If you have an Amazon Prime subscription, you can even watch IMDb TV as a channel on Prime Video or app. Thanasis zovoiis/Moment/Getty Images IMDb TV requires you to get into work, but they give you a lot of options. You can use your existing IMDB account if you have one, or make a new IMDB account for free. You can also log in with your Facebook, Google, or Amazon account. Here's how to log in to IMDb TV, and get started with a new account if you like: Go to IMDb.com, and then select Sign B located in the top right corner of the page. Select a sign in the method, then enter login accounts to continue that account, or select a Create account to create an IMDB account. When you create a new account, enter your information, and then select Create an IMDB account. Once you sign in to your existing account or create a new account, you will be returned to your main IMDB website. Once you've signed up and logged in, watching movies on IMDb TV is very easy. You can use Advanced Title Search to find the exact thing you're looking for, or just browse the shows and movies listed on the IMDb TV homepage to find something that looks interesting. Here's how to watch TV and movies on IMDb TV: Go to IMDb.com and then select IMDb TV at the top left of the page. Find the movie or TV show you want to watch and then select it. Your movie or show will automatically start playing. IMDb TV doesn't have many extra features as the ad is supported by a free service, but it does include a watch list. You can add any movie or show on IMDb to your watch list, regardless of whether it's available on IMDb TV, and track what you want to watch. If a show or movie is available on IMDb TV, you can use your watch list to find it on IMDb's main website and then watch it. This process is no different from other services that include some kind of queue or watch list, but it can be misleading because of the way it leads you to the regular IMDB list for a show or movie you're trying to watch. Here's how to use the IMDb TV watchlist: To add a show or movie to your watchlist, place your mouse over a show or movie that interests you, and select q in the top left corner. From any IMDb page, select the surveillance list at the top of the page to get to the watch list. Choose any show or movie on your list to go to the IMDb page for this title. From the IMDb page for this title, select Watch for free on IMDb TV to watch it. There are two ways to watch IMDb TV movies and TV shows on your phone, tablet or streaming device. You can use the IMDb TV app if it's available for your device, or you use IMDB in the Prime Video app. If you already have a Prime Video app, then this is a more convenient option. If you don't have Amazon Prime, then the IMDb TV app works just fine. Here's where you can get the IMDb TV app: Here's how to use the IMDb TV app: Start the IMDb TV app, and either log in using one of the methods provided or click CREATE AN ACCOUNT. Either log in using existing credentials or create a new IMDB account. Choose whether or not the IMDB app allows access to your location. Click OK to allow the IMDb TV app to ping your phone with notifications, or click REVIEW to disable notifications. Click IMDb TV at the top of the bar menu. Click on the movie or show what you want to watch and it will start playing. If you have Amazon Prime, you must have a Prime Video app installed on all your devices. It provides instant access to free Amazon Prime Video content, any channels you subscribe to, and the entire IMDb TV library. Here's where you can get the Prime Video app if you don't already have it: Here's how to watch IMDb TV channel in the Prime Video app: Launch the Prime Video app and tap Channels at the bottom of the menu. Click IMDb TV. Click on the movie or show what you want to see. Click Watch Now, and the movie or show will start playing. Play.
