Page 2 Seasonal Sales of New Coffee Products Coffee Roasters Espresso Machines Saeco Machine Fetco Coffee Brewer Nisha Coffee Grinder Coffee Grinders Accessories Rogatka Coffee Grinder Milk Steamboat Iberital Coffee Machine Coffee Bean Tea Machine Cleaning Products Spare Parts Description Brenda Additional Reviews Information (0) WPM Milk Steamboat MS - 130D Supplied in a compact design and can heat 200ml of milk to 60 degrees Celsius in just 40 seconds. You can also produce micro foam with a smooth texture using super steamed thermoblock technology. It also comes with a descaling feature with just a click away! It has a 4 bar steam pressure pump for a stable, continuous steam output. The stainless steel case is sturdy and aesthetic. It is a multifunctional machine with a water tank of 800 ml, and can make coffee, milk tea, fruit tea. It also has a cleaning button with two programs, a short cleanup and a complete cleanup. And comes with an adjustable steam stick with a 360-degree rotation mechanism. How to use this WPM Milk Steamer: Turn on the power button, wait until the light is running to green and turn on the dial to start. Place the stainless steel jug on with milk on a removable drip tray. Insert the steamstick into the milk, about 1 cm below the surface and in the middle of the milk jug. Care and use: Daily cleaning: After use, wipe off the steam with a damp cloth to clean the residual milk on the surface of the steam room. Deep cleaning: Fill the water tank, add the descaling agent properly, press the red cleaning button to get into cleaning mode and clean it automatically. If the milk is powdered/caramelized on a steam stick, wrap the stick with a clean damp cloth. Now turn the steamstick over the dive tray and turn the steam on for about 10 seconds. Leave the stick to soak for 5 minutes with the cloth still on. Dry milk should be easily wiped out now. Repeat if it's still dirty. Read the user's guide to the field carefully before using it for the first time. It also includes detailed information about the use of the cleaning mode.
