Hello, essentially what I'm trying to do is get the Amazon App Store APK found here: [amp;amp;MLP=1](#) using developer Darkuni on geforce forums called APK2TV find here on XDA: I had no luck, so I tried to do it manually with Android Studios by changing the manifesto. However, when using APK a simple tool found here on XDA: [to decompmi APK](#), but I was unlucky as well. The guide to Android looks pretty simple if you're a developer, anyone had such luck to get the Amazon APP Store on the billboard?? Not Amazon video, APP STORE on Amazon. Why? I would like to play games, and see if GameFly, will work: I would imagine it would be like a shield controller looks the same layout: January 18, 2018, 02:54 am #2 I'm also interested in that. I have several Amazon/games apps I would like to use on satv. This page includes affiliate links where TROYPOINT can get a commission at no extra cost to you. Many times you will get a discount because of the special arrangements made for our visitors. I will never promote something that I personally do not use or recommend. Buying through my links directly supports TROYPOINT, which keeps content and tools coming. Thank you! This tutorial will show you how to install Aptoide TV APK on Firestick, Fire TV, Fire TV Cube and Android TV Boxes. This alternative app store will work just as well as Google Play or aurora store. Aptoide TV works similarly to Google Play and best of all, this version is optimized for streaming devices that run Android Wasps such as Amazon Firestick, Fire TV, and Android TV Boxes. Note: Aptoide TV has recently updated, which includes the following changes and improvements: Faster navigation with the new menu New Map Design Easy access to available updates and installed applications Minor bug fix one of the problems with installing Android apps on Fire TV or Firestick is that they do not work very well with the remote control. This is not the case with this optimized version of Aptoide TV because it was specifically created for our streaming devices such as Amazon Fire TV or FireStick. If you decide to install Google Play on Firestick, then you will need to eradicate the device and go through a ton of steps to complete the process. This is a simpler method and best of all, most of the apps that are available in Google Play are also available in Aptoide TV. Aptoide TV Highlights of the most popular third-party app stores contains more than 750,000 apps compatible with any device that runs Android, such as Firestick 4K, Fire TV, NVIDIA SHIELD and Android TV TV Free to install Easy to navigate user interface Large variety of categories of apps has many great apps that are not available in the Amazon App Store or Google Play works great with IPVanish VPN Fast and Simple Installation Process For these reasons and more Aptoide TV is included as one of the BEST TROY Firepoint applications. Important note: Installing Aptoide TV is one of the first steps to a jailbreak of Amazon Firestick/Fire TV device. For more information about jailbreak your Firestick/Fire TV be sure to check out our popular TROYPOINT guide below. As Jailbreak Amazon Firestick / Fire TV Aptoide TV User Interface Screenshots Important Note: We suggest view of our video tutorial below for details and more details on Aptoide TV. To install Aptoide TV on our Firestick 4K, we will use the Downloader app for side downloading the app. TROYPOINT TIP: For the fastest installation of Aptoide TV and dozens of other apps, check out our free TROYPOINT Rapid App Installer. This app lets you install the best streaming apps and tools in minutes, rather than installing each APK one by one. Use the link below to access this free app. TROYPOINT Fast App Installer Aptoide TV APK Installation Guide for Firestick and Fire TV IMPORTANT: Before installing, make sure to turn off the vpn service. However, when using Aptoide TV, be sure to turn back on a VPN. Step 1 Options Click on the screen by clicking the Select button on the remote control. Scroll to the right with a navigation button on the remote control and tap My Fire TV. Step developer options 3 Click. Scroll down and make sure apps from unknown sources are included. If it's OFF, highlight this option and click select on the remote control. Step 5 Click Home on the remote to return to the home screen. Step 6 Use the left navigation button on the remote to click on the search icon located in the top left corner of the interface. Step 7 Will in Downloader to install a free app. This will be used for the side download of the Aptoide TV app. Step 8 Click Navigation Down on the remote until the search term is highlighted. Then click OK. Step 9 Under the APPS and GAMES category, hover over the Downloader icon and click THE OK button on the remote control. Step 10 The app will be ready to download. Click Select on the remote to start downloading the app. Step 11 Click open. Step 12 Allow when offered with this message. Step 13 Message about the new features of the app will be displayed. Click OK. Step 14 Click on the URL bar that shows the http://. Step 15 The keyboard on the screen will appear. Bring troypoint.com/app and click the Go button. This label will link directly to APTOIDE TV APK in order to install it its important note: This APK file is not hosted by TROYPOINT. This link indicates an installation file posted in the aptoide.com. Step 16 Wait for aptoide TV installation. Step 17 Click Set. Step 18 Click Finished. Step 19 Pop-up will appear, click Delete. This is to make room to store your Firestick or Fire TV. Step 20 Confirm by selecting the Removal button again on the screen. Step 21 of the Aptoide TV app will not yet be included in the Apps and Games section. Hold the Home button on the remote until the shortcut to Your Apps Library window appears. Click Apps. Step 22 you will be redirected to the apps you have downloaded. Scroll down to find the Aptoide TV app. Step 23 Click Menu on the remote control and select Move in front to move Aptoide TV in front of your apps and channels. Step 24 Aptoide TV is now in front of your apps and channels. Step 25 Aptoide TV is now successfully installed! Start the app to get started. Step 26 Click OK when this post appears about what's new with Aptoide TV. Step 27 Click Allow. Step 28 Now you're ready to install apps using Aptoide TV. Enjoy! The video below will show you how to install aptoide TV and jailbreak device for unlimited streaming capabilities. Video Training Warning! Protect yourself with VPN Most cord-cutters use VPNs and rightly so. Free streaming apps, addons, and paid IPTV services you use are usually hosted on unsafe servers. Without a VPN, your IP address is registered. Your IP address indicates your location and identity, which jeopardizes your privacy and security. Your current IP address is 176.9.137.118 - If you use a VPN, your real IP address will be converted into an anonymous new one. A VPN will provide you with an anonymous Internet connection. This will prevent your ISP, app developers, government agencies, and any third party from knowing what you are accessing online. The most popular VPN among cord-cutters is IPVanish because of their blazing fast speed and zero magazine policy. Its important to use a VPN that is fast since we're streaming large HD files. Its also important to find one that doesn't keep logs on what their subscribers access while online. Setting up an IPVanish VPN on a streaming device is simple! Step 1 Registration for IPVanish VPN account by clicking on the link below. This exclusive link provides you with a hefty discount available only to TROYPOINT visitors like you. Sign up for IPVanish accounts and save 73% Step 2 - Hover the search icon on firestick, Fire TV, or Fire TV Cube and type in Ipvish You You can find the IPVanish App in the Google Play Store for those of you who use Android TV Boxes, phones and tablets. Step 3 - Click on IPVanish VPN VPN that appears. Step 4 - Tap the IPVanish icon under apps and games. Step 5 - Click Download. Step 6 - Click open. Step 7 - Enter your username and password to enter. Your username is an email from which you registered for the IPVanish service, and your password is automatically generated and emailed to you. Step 8 - Click Connect. Step 9 - Click OK to connect the request if it appears. Step 10 - You'll notice that your IP address changes along with the location of the connection. Now you work anonymously through the device. Click home on the remote, and the VPN will remain in the background. Congratulations! Now you are protected by a VPN, which means that everything you stream or access through Firestick or Android TV Box is hidden from the rest of the world. If you ever need to stop the VPN service, just start the app and click the DISCONNECT button. How to install Aptoide TV on Android devices Although the Firestick guide above using Downloader is a similar process with Android devices, we wanted to show a different method. Below we use the X96 Max Android TV Box, which runs the Stock Operating System Android (OS). I suggest reviewing our Android Resource Guide for more information on the differences in Android OS and other information. If you use an Android mobile device, you will need to install a mobile version of Aptoide on the official Aptoide website. 1. First, you'll need to get our free installation of a quick app if you don't have 2 yet. If you have a fast app setup on your device, start the TROYPOINT app. 3. Click OK when asked with this message. 4. Select Rapid App Installer on the TROYPOINT home screen. 5. If asked with this message click Allow. 6. Scroll down and find Aptoide TV. Tap the download icon on the right. 7. Wait a few seconds to download the APK file. 8. Next click the play icon. 9. If asked with this message, click Settings. 10. Scroll down and hover over the TROYPOINT option. Click OK on the remote to turn on the TROYPOINT app. 11. Next Click Set. 12. Click Finished. 13. I suggest going back to the home screen and clicking the plus icon (me). 14. Find and click the Aptoide TV icon. 15. That's it! Now you've successfully installed Aptoide TV on your Android TV Box with our fast app setup. How to install Aptoide TV on Firestick or Fire TV via ES File Explorer Another alternative to the side download app Downloader is the use of the ES File Explorer app. Follow the steps below to download the Aptoide TV app. Important note: ES File Explorer now charges for its app. How to get a modded free premium app through our ES File Explorer Firestick tutorial. Step 1 Launches ES File Explorer app. Step 2 Click on the tools of the download manager. Step 3 At the bottom of the screen, the screen, the new button. Step 4 Pop-up will appear. Enter on the Path field. Step 5 On the field of name, enter aptoide TV. Step 6 Click DOWNLOAD NOW. Step 7 Will pop up when you download THE APK. Click OPEN FILE. This will allow you to start the installation process. Step 8 Pop-up will appear. Click install. Step 9 Click Set Installation Complete!
