Heavy duty step stool with handle

Step chairs are one of those items that you never think about until you need it - like when it's hard to reach a light bulb burns out, or when you need to find something in the back of your tallest office. Changes in life can lead to a new need for a step chair too, as when these tight knees make it difficult to climb into a high bed. Or when young children start brushing their teeth on their own! These useful home accessories can take so many forms, from strictly utilitarian to beautiful designer styles. This post has 51 step chairs you can buy right now, a choice covering simple one-step models of folding staircases and multifunctional all-in-one designs. Beautiful bamboo Single Step Stool: Made of durable bamboo, this step chair combines beauty and resilience in one streamlined package. The lightweight design is easy to transport around the house while the tenacious feet provide reliable stability while in use. Ikea Bekvam Wooden Step Chair: If you're looking for a little more DIY step chair, the BEKVAM model from IKEA comes in black and white or neutral beige that you can personalize with your own choice of non-slip paint. The cut-out handle on top makes it easier to move and move as needed. Stylish wooden step chair: The lovely Butler step ladder is a Stockholm-based work by industrial designer Shane Schneck. Built from solid oak, this piece has a sleek style that easily doubles as a side table or spare seat for multipurpose appeal - the perfect balance between modern aesthetics and everyday performance. Solid wooden step chair: Nothing beats handmade furniture. This wooden step chair is hand-crafted using a 17-step process, finely polished and finished with light wax to ensure tangible smoothness. The 8-inch height is great for using a bed, next to the sink or anywhere you need it. Small step chair: Sometimes a smaller stool is the best chair for work. This part is only 6 high, making it the only correct size to use as a step bed chair or as a resting place to rest your feet under the table. The solid wooden design provides durability, while the smooth polished finish is safe for barefoot. Choose from a go-to finish, a natural finish, or choose an unfinished version to make it your own. Stylish Bent Plywood Step Stool: Originally designed for professionals in the massage industry, this sleek little step chair provides the perfect boost when using a high work surface like a massage table - but the potential applications are limitless. At only 4 high, it's easy to tuck between uses. Ikea Viltto Step Stool: Built from solid birch in clear acrylic varnish, this neat little step chair offers a light appeal. This style is sure to look great in any house - especially with interiors based on minimalist, modern, rustic or Scandinavian themes. Semi-circular step chair: bold bold Style makes this step chair a sculptural statement piece. The design of the semicircles looks almost like a designer side table, a role he can easily take on between using as a comfortable two-step chair. Modern Metallic Steppe Chair: Are you looking for something sleek and modern that stands out from the rest? This metal step chair has metal sleigh-style legs and a curved top for attractiveness. The cut-out handle in the center provides easy portability. 1 Step Aluminum Step Chair: For a small step chair that cuts straight to the point, this aluminum option keeps things simple with simple functionality. Choose from black, white, red and orange to find the model that best suits your interior. This chair is folded together neatly for easy storage. Tick Step Chair: This gorgeous wooden step chair is a delight! Bright and varied teak stripes give the surface a subtle rustic flair while the white painted details offer a modern pop of contrast. The tick is naturally resistant to water, making this piece a fantastic option for the bathroom or kitchen. Espresso Wooden 3 Step Chair: Enjoy the multi-purpose appeal of this high 3-speed chair. Its height makes it nice to use as a free space at the kitchen counter or dining table, while folding steps make it easy to climb to change those hard-in-reach light bulbs. Choose between a classic cappuccino trim or go bright and modern with white. Walnut finish step chair: Here's a two-step chair that also has a folding design. Simply swing the bottom step inside to minimize the footprint for easy storage or use the top step as a comfortable free seat. Dark finishes are easy to coordinate with different styles of interior from classic to modern. Sit or step chair with handles: Choose between two height options - get a few extra inches of height when faced with the top up, or flip it upside down for a more gentle step. The comfortable lower shelf serves as a neat place for books or magazines, or a neat place for children to stack toys. Convertible step chair stairs: This unique chair chair chair easily switches between chair mode and step ladder mode. Turn the top half down to enjoy a traditional seat with comfortable back support, or flip the chair backwards to completely expand the ultra-useful 3-step staircase. White Step Chair With Storage: Built with extra storage space inside, this step chair makes it easy to reach what you need and keep away from things you don't do. Use as steps to help older pets climb to bed and store your bedside items need inside. Place in the closet to reach this top shelf and use the storage compartment in off-season accessories. Or place in the children's bedroom as a combined step stool and toybox.
