In the series, Lelouch is a former prince of superpower Britannia who is given the power of Geass by a witch known as C.C. Using Geass and his genius-level intellect, Lelouch becomes of the Resistance known as The Black Knights under his alter ego Zero (ゼロ) to destroy the Holy Britannian Empire, an imperial monarchy that has conquered various countries under the control of his father. He is expressed by Jun Fukuyama and his younger self is expressed by Sayaka Ohara. Lelouch was designed by the group of manga artists Clamp, who aimed to create a stylish and visually appealing character. Lelouch's character has been recognized as one of Japan's most popular figures during the time Code Geass was sent, appearing at the top of several polls. Publications for anime and manga saw Lelouch as an interesting character. Despite his ruthless methods of destroying an empire, he still has several strong relationships that made him a sympathetic character. His voice actors Fukuyama and Bosch have been praised for their work as Lelouch's voice. Creation and design Early design by Lelouch and his alter ego, Zero, (top right), by Clamp. While designing the concept of art for Lelouch, the show's original character designers, Clamp, had originally conceived of his hair color as being white. [1] Nanase Ohkawa, lead author on Clamp, said she had visualized him as being a character that anyone could relate to as being cool, literally, a beauty. During the development of the character in the initial planning stages, the show's core employees at Sunrise, the director Gorō Taniguchi, writer Ichirō Okouchi and the production team discussed many possible influences for the character with Clamp, such as the apganes idol duos KinKi Kids and Tackey & Tsubasa. [2] In the early planning stages of Lelouch's alter ego, Zero, Clamp had wanted to create a mask never seen before in any Sunrise series. [2] Zero was one of the earliest developed figures. Okouchi wanted a mask to be included as part of the series because he felt that a mask was needed to be a Sunrise show. [3] In the early designs of the character, Zero had long silver nails. [1] On the 10th anniversary of the series, Taniguchi decided that it was necessary to further develop the lelouch that led to the latest film. While staff believe the franchise will be expanded in the following years, they no longer plan to use Lelouch's character. [4] The Japanese voice actor Jun Fukuyama said he had no trouble expressing Lelouch for the Lelouch of the Resurrection movie as opposed to the TV series, finding his character simpler to understand as rather than and the war. Lelouch participated in the film solely to protect his sister. Fukuyama argued that Lelouch was one of the most successful works of his entire career to the point many people called his work as a masterpiece. As a result, after the end of the TV series, Fukuyama began to receive offers in terms of other anime series. He also comments he had fun working with actor, Takahiro Sakurai, who he looked for because of his experience. [5] Appearances in Code Geass's First season Lelouch is introduced in the first episode of the series as a student of Ashford Academy, where he is a member of his student council. He accidentally boards a truck used by Japanese resistance fighters. Within the truck is a capsule holding a witch known as C.C. (pronounced *Cee Two*) who sacrifices herself to save him from the military forces trying to retake her. When it looks as if her sacrifice was meaningless, CC offers him the Power of the King, the mythical power of Geass. Geass manifests himself in him as the force of absolute obedience, which allows him to get people to obey his orders without question. [6] With his new power, Lelouch begins his rebellion against the British Empire, starting with the killing of his half-brother, Clovis Ia Britannia, after extracting information about the murder of his mother, Marianne. [7] He takes up the identity of Zero and later forms the Order of the Black Knights, becomes a revolutionary and gain popular support among the people. [8] [9] The turning point in his rebellion comes when his half-sister, Euphemia II Britannia, declares the region of Mount Fuji at the Special Administrative Zone of Japan, giving the Japanese people their name and land back, albeit in a much smaller area. Lelouch confronts her at the opening ceremony and tries to get her to shoot him, hoping to make herself a martyr. When she says she plans to give up her royal title, he surrenders and agrees to work with her. But at this moment his Geass permanently activates without him knowing, and a casual comment about ordering her to kill the Japanese causes Euphemia to do just that. [10] Lelouch reluctantly kills her and uses the massacre as an excuse to trigger the black rebellion, declaring Japan an independent nation and leading an attack on the Tokyo settlement. [11] The attack goes well at first, but when Lelouch finds out that Nunnally has been kidnapped, he abandons the battle and leaves his forces helpless against the better-organized British military. Lelouch makes his way to Kamine Island to search for Nunnally, but faces Suzaku. [12] The second season reveals that Lelouch is defeated by Suzaku, who arrests his former friend and brings him to his father. Akto The Exiled After Suzaku brings Lelouch to Charles, he forces to hand him over on the condition he be admitted to the Knights of the Round, much to the chagrin of Lelouch. Charles agrees, and uses his Geass to change Lelouch's mind. With this, Lelouch becomes the empire's evil military adviser, Julius Kingsley, wearing an eyepatch over his Geass. Lelouch makes a few appearances in the miseries, first seen in Suzaku's custody, as he grabs his right eye while begging his friend for water, only to be silently turned down. In his his upon arrival in St. Petersburg, Kingsley proudly declares that the Emperor has placed him in charge of all the operational planning of Britannia's military on the eastern front. In the third episode, Lelouch meets Shin Hyuga Shaing and others for a meeting. Where he tries to arrest the others in his plan. Lelouch shows a clip to create fear and chaos in the city. Later, he plays chess along Hyuga, but begins to hallucinate Kingsley and earlier memories of rebellion. Later Hyuga figures out that he was both Zero and Lelouch and calls his squad. Suzaku, in an attempt to defend the secret, kills most of the squad while Lelouch rips his eye-patch. Eventually, both are captured, and Hyuga later declaring Kingsley executed and revealing that he is Zero. From here, Lelouch begins to regain his memories in a traumatized way, causing Suzaku to strangle him until Lelouch starts crying and begging Suzaku to kill him. They are saved by Rolo Lamperouge and from there Charles is forced to use his Geass on Lelouch again. This time he is unaware of his royal legacy or is zero, but still lives a life strikingly similar to the one he led at the start of the series. Second season A year after the black rebellion, after the emperor obliterated his memories, Lelouch lives as an Ashford student with Rolo Lamperouge, appointed to oversee the delusion under the guise of Lelouch's younger brother. Lelouch's memories are echoed by C.C., and he resumes the leadership of the Black Knights, gaining Rolo's confidence in the process. [13] [14] When Nunnally is appointed Governor of Area 11 and announces his plans to re-establish the Special Administrative Zone in Japan, Lelouch engineers the legal exile of the Black Knights by getting the Britans to agree to exile Zero in exchange for bringing a million participants to Nunnally's new Japan. [15] The Black Knights are fleeing to the Chinese confederation, where Lelouch begins to forge an alliance with the other world powers to create a force to compete with Britannia. He starts by destabilizing the Chinese Federation, returning control to Empress Tianzi from High Eunuchs. Once Lelouch's new alliance, the Federation of the United Nations, is formed, their first act is to liberate Japan. Despite Lelouch's desire to protect his sister, his Geass forces Suzaku to shoot a nuclear weapon, destroy much of the Tokyo settlement and probably kill Nunnally. Schneizel then convinces the Black Knights to betray him with a distraught Lelouch willing to be killed by his former comrades until Rolo sacrifices his life to save him. [16] Lelouch decides to go to Kamine Island and defeat his father. Joined by Suzaku, he learns the truth that his mother faked her death and has helped the emperor in his goal to wipe out individuality from the world. Lelouch, awaken his full Geass powers while the reality his parents intend, controlling the will of C's World unit even to erase the swords of Akasha and his parents out of existence. A month later, Lelouch usurped the British throne and appoints Suzaku as his knight to set the stage for their ultimate plan, Zero Requiem. [17] As emperor, Lelouch dismantles the British class system and liberates all colonies. He then asks Britannia to join the FN, but continues to take council members hostage after it was revealed that Britannia's large population would give him a majority voting bloc. This brings him into conflict with Schneizel, who has Nunnally in his custody and commands Damocles (a floating fortress that he intends to place in a position that would allow him to fire nuclear weapons worldwide), and the Black Knights now under Kaname Oghi. In the final battle in which Suzaku fakes his death, Lelouch outwit Schneizel and place him under a Geas command to serve Zero. From there, learning that Nunnally has regained her sight and has acted on her own plan to unite the world through the fear of Damocles, Lelouch uses his Geass on her to give him Damocles' key. With Schentzel and Damocles both under his control, Lelouch declares himself the ruler of the world. Two months later, Lelouch organizes the public execution of Black Knight leaders and UN representatives. It is then, as Nunnally, the UN and the Black Knights learn afterwards, that Zero Requiem's final phase takes place with Lelouch being killed by Suzaku in the guise of Zero. With his death, Nunnally succeeds his brother as empress and the world unites in a new era of peace and cooperation. In spinoff OVA, Miraculous Birthday, he briefly uses his power in the afterlife to say goodbye to Suzaku, Nunnally, Rivalz, Nina, and Kallen before departing. Since the end of the anime show staff have officially confirmed on several occasions that Lelouch is truly dead and not immortal, because Lelouch paying for his sins through death was their sense of ethics. [18] [19] [20] [21] [21] [22] [23] [24] [25] [26] [27] [28] [29] [30] [31] [31] One such example was Geas Memories anniversary Twitter event, how screenwriter and co-creator Ōkouchi said: At least he should pay attention to his sins and atone for those with death. That was the ethical point of view of me and Director Taniguchi's work. [32] Lelouch from the Resurrection In the events of the 2019 film Code Geass: Lelouch from Re:surrection, Which takes place a year after the events of the summary film, who forms an alternate universe.[33] Lelouch corpses are revealed to have been smuggled away by Shirley and literally revived from the dead by C.C. and had stolen Britannian's new Knightmare, Gawain. [38] In a special Code Geass Picture Drama episode, Lelouch appears on December 5 for Ashford Academy's school festival, helping Rivalz, now school president, along with some of his friends. But a fight breaks out in the school grounds of the neo-Chinese federation, led by a former eunuch who takes everyone hostage. With the help of his friends, Lelouch manages to stop the Federation's soldiers. In the aftermath, the whole episode is revealed to be a dream come true, as the ghost of Lelouch used to thank everyone. [39] In a special OVA parody episode, based on Alice in Wonderland history, Lelouch is telling the story and appearing in the role of the Mad Hatter. [40] Character sketch Lelouch vi Britannia is the son of the Emperor of Britannia, Charles zi Britannia, and the late Imperial Consort Marianne, making Lelouch the eleventh prince of the Holy Britannian Empire. [41] He was seventeenth in line to the imperial throne before the murder of his mother, an event that also left his sister blind and crippled. His father banished him and his sister Nunnally to Japan, where they were used as political tools. It was during his stay at the Kururugi household that he first met Suzaku Kururugi, who would later become his best friend. [42] The death of his mother and his father's apparent concern about it were major blows for Lelouch. He always felt that it was unfair to both his mother and sister, and therefore made it his goal to pursue a better world for Nunnally. He also seeks to discover the true cause of his mother's death when she was murdered in Aries Imperial Palace, a place terrorists would be unlikely to penetrate successfully without being noticed, if at all. Lelouch is someone who is calm, sophisticated and arrogant because of his aristocratic upbringing. At school, Lelouch behaves like a sociable, likeable and often easy student; but in reality this is a mask to hide its true nature. Like Zero, his true nature is expressed. His charisma and belief in justice gives him trust and respect for many soldiers and leaders. Lelouch possesses very strong philosophical beliefs that define both his actions and his motivations. Perhaps his most notable is that he rejects his father's belief in social Darwinism. He believes the world can live together rather than through conflict and struggle. In order to achieve this objective, he believes that the objectives justify the means. He is willing to commit evil acts to bring down a worse evil in the process, and is always focused on getting results regardless methods used. Lelouch also has strong beliefs about death and homicide, thinking that a person should only kill if he is prepared to die himself. The abilities of Lelouch's Geass, given to him by C.C., give him the power of absolute obedience so he can plant commands in a person's mind by eye contact, similar to extreme hypnosis. Activating his Geass is visually represented by the manifestation of a Geass sigil in his left eye. Commands dictated in this mode are written into the head of someone he makes eye contact with. The people under this power obey Lelouch's orders to the best of their ability. Once placed, the orders cannot be changed or cancelled, nor can the items withstand its absolute influence. Also, Lelouch can only throw Geass at one person once; Afterwards, the power will not work on them anymore after its conditions are met unless their original command has been removed by a Geass canceler. Even without his Geass, Lelouch is a formidable opponent. Having an incomparable intellect, he is able to devise and execute plans and strategies with amazing speed and precision. He rarely fights opponents directly. Instead, he attacks normally coordinated groups or armies that were focused under his direct command. He thinks of his matches as a chess game, where he is a masterful player, always beating everyone who played against him. Lelouch often gambles on his chess games against Britannian nobles and other skilled players as a pastime as a student. As a teenager, he makes use of his masterful skills as a commander in real combat, predicting enemy movements, and giving orders on how to respond to forces at his command, and exploiting traps and schemes that were strategically put in place to destroy the enemy. In contrast, his physical condition is poor; however, he shows above average hand-eye coordination, both with firearms and the keyboard-based control system of Shinkirō. Lelouch is also proven to be very charismatic and persuasive, his belief in justice able to win the support of the people through well-off speeches combined with his ability to do miracles through superior strategic planning. In episode 14 of R2, V.V. remarks that Lelouch is much like his father, Shinkirō Lelouch, Shinkirō Lelouch, usually operates standard Knightmares, but pilots like Suzaku and Cornelia, both of whom are masterful pilots who use faster and more advanced models, are usually able to overwhelm him in single combat. Lelouch is typically accompanied by Kallen, who serves as his personal guard. After stealing the advanced model, Gawain, Lelouch co-pilots it with CC, controlling weapons and command functions, while CC handles navigation and flight until it was lost in the ocean when trying to deal with Jeremiah. After the black knights are banished from Japan, lelouch Shinkirō, Shinkirō, has the strongest defense of any Knightmare, but it requires an intellect of his level to perform the complex calculations needed to be effective. Receiving Popularity Jun Fukuyama and Johnny Yong Bosch are praised for expressing Lelouch. Lelouch's character has been well received by viewers of the series, appearing in various anime polls. Lelouch was named the most popular male character in 2006, 2007 and 2008 In Animage magazine's annual Anime Grand Prix[43][44][45] and Newtype magazine named him the best anime male character of the decade. [46] At the Society for the Promotion of Japanese Animation Awards of 2008, Lelouch was nominated as one of the best male characters. [47] [48] In 2014, NTT customers voted him as their 13th favorite black-haired male anime character. [49] His voice actor Jun Fukuyama also won the Best Actor in a Leading Role award for his portrayal of the character at the first Seiyū Awards in 2007. [50] Fukuyama's work as Lelouch's voice actor also led him to win the Tokyo International Anime Fair in the Best Voice Actor category. [51] Critical critics of anime and manga series have also commented on Lelouch's character. Anime News Network's Carl Kimlinger stated that Lelouch is hard to suffer because of his narcissistic personality, but noted that his ties with Nunnally and his friends make up for it. [52] Bamboo Dong from the place agreed with Kimlinger, but noted that Lelouch 'made the character interesting to see. [53] Gia Manry from the same place listed Suzaku and him as the third best frenemies in anime because of how their friendship falls apart as a result of their rivalry. [54] Mostly positive responses were given by Danielle Van Gorder of Mania Entertainment because of Lelouch's differences from most of anime's protagonists and how his double life as a nobody and as a student is shown across the series. [55] Chris Beveridge from the same place praised Lelouch's actions in R2 when he became The Emperor of Britannia, describing him as the villain's classic angle of good motives because of the dangerous actions he does for a greater good. Beveridge also commented on his confrontations with Scheizel and Nunnally, mentioning the rivalry across the series in the former and citing the latter as heartbreaking. [56] The work of Johnny Yong Bosch was also the subject of praise. [57] IGN compared him to Light Yagami from the Death Note series because of his double life and his questionable methods, respectively. The double life aspect has also been praised because of how such a change also separates the show's tone from a high school comedy to an action show, and how he wind-up between his two selves. Moreover, his reasons for evil actions have also been found to help viewers to suffer the character. [58] Also from IGN, Ramsey Found Isler Lelouch's double life comical as after short prologue of his role as in 3rd episode, he is seen doing homework at school for being absent in classes. [59] Kevin Leathers from the UK Anime Network enjoyed Lelouch's personality when his cold persona made the series refreshing from other mecha anime. [60] Lelouch is ranked 23rd on IGN's 2009 list of best anime characters of all time.[61] and 18th on IGN's 2014 list. [62] Fandom Post noted that Suzaku and Lelouch's relationship could attract female viewers, so he recommended them an anthology manga that praised the many designs presented. [63] Kotaku enjoyed both Lelouch's and Suzaku's moves because of how they both consider themselves evil, which resulted in the series

achieving an appealing ending due to how the duo orchestrated Lelouch's death to bring peace to the chaos they created. [64] Regarding his role in Lelouch of Re;surrection, Anime News Network noted that while the film centers around the many implications of Lelouch's actions across the TV series in terms of the recurring cast, he was not the protagonist, as instead, the narrative focused more on C.C. Nevertheless, the author noted that one of the greatest mysteries behind the film That people speculated was if Lelouch revived something that could have ruined the TV series' ending. [65] Fandom Post commented that when reviving, with that being what he rejoiced most, Lelouch retains his old features such as his love interests and his ties with Suzaku. But he still found his ending with CC too abruptly despite feeling appropriate at the same time. [66] On the other hand, Kotaku criticised his role in ovas Akitō the exile because of their lack of relevance. [67] References ^ a b Clamp (2008). Code Geass x CLAMP: Reciprocity.
