The VFR guide is the right approach to VFR flight. English: The Jeppesen VFR Guide is a free-leaf system for preparing, planning and performing flights within Europe in accordance with the rules of visual flight. The guide contains a general section and country-related parts with communications, meteorology, regulations, a catalog of airfields, as well as a visual approach, landing schedules and area. Eighteen geographic coverages are updated by the regular monthly review service. Travel kits: For trips outside of your VFR guide, you can use our Trip Kit service. Travel kits are identical to normal manuals, but do not include a review service or a binder. VFR coverages are updated every 28 days (13 times a year) and there is congestion for review services shipped outside Europe. Deutsch: Das Jeppesen VFR Guide ist erfassten Airports at 29 europäischen Ländern das umfangreichste VFR Guide in Europa. Es ist in verschiedenen geografischen Auflagen, basierend auf Erfahrungswerten oder für sie individuell zusammengestellten Londerkombination erhältlich. In Verbindung mit einem monatlichen Revisionservice oder als einmaliges Trip-Kit bietet Ihnen das Jeppesen VFR Guide unvergleichliche Flexibilität. Planungen und Flugdurchführungen innerhalb Europas nach Sichtflugregeln, beinhaltet das Jeppesen VFR Guide neben den farbigen Sichtenflugkarten, lunderbezogene Textteile wie Regulations, Communications, Meteorology und das Aerodrome Directory. Das einseit-Blatt-System vereinfacht die monatliche Aktualisierung. Kudem lassen sich einzelne Karten herausnehmen, um sie beispielsweise in individualist Kombination auf Ihrem Kneebord oder auch direkt Ihrem Steuerhorn zu nutzen. Ergänzt wird der VFR Service durch Chart Change Notices im Internet oder durch einen kostenlosen E-Mail Newsletter. French: Covering more than 2,200 airfields in 29 European countries, the Jeppesen VFR guide is currently the most comprehensive VFR flight guide in Europe. Several different editions are available depending on the customer's geographic preferences or may also contain a selection of countries previously selected by the customer. The upgrade service is available year-round or in Trip Kit (only available for four weeks). With Jeppesen services, you now have the flexibility to prepare and operate flights. In addition to color maps of visual, landing and field approach, landing and terrain, the Jeppesen VFR guide also contains a chapter on general and country texts, including regulation, communications and meteorology, as well as a catalog of airfields and more to prepare and perform flights to (VFR) sur le territoire European. Le System de feuilles volantes permet quanta et Louis de procéder facilement aux mises en jour mensuelles ou d'utiliser des cartes individuelles sur votre plan de genou ou encore fixés au manche. Le service d'actualisation manuelle est accompagnée du service en ligne Chart Change Notice hebdomadaire, galemment disponible gratuitement sous la forme d'une newsletter to transimise nominal e-mail. The full set of services that work together the most complete list of navigation maps available in English, German or French Are more personalized options than ever before before the 7-hole template allows the integration of the VFR and IFR charts into the same binders We are happy to provide the latest changes to the Jeppesen VFR Guide (Bottlang) through this online service. Our print review service includes notifications about chart changes every 28 days, but this Internet service provides weekly updates to always keep your information up to date. For easy use, the document is divided into a text document and corresponding graphs of the chart (if available). This allows you to select the download and reduce the size of the download.
