Running with scissors acoustic lyrics

Embedding I see stars running with scissors (acoustic) words is property and copyright to its owner(s) provided for personal use only. I see stars running words with scissors The truth couldn't be more clear and I'm not asking you to hold on to it Everything you've ever feared I know you're trying so hard to move on It kind of feels like someone switched the heart that used to be yours I'm trying hard to be someone but falling short of the person I want to be I want to be so I'll pretend I let go while you dance in the past without colors You'll be the one who ran away in nightmares My I let go You said you'll never look back You'll be the one who ran away in my nightmares Trying hard to be someone but falling short of the person I want to be trying hard to be someone but falling short of the person I want to be I want to be running [x4] The truth couldn't be clearer and I'm not asking you to hold on to that's all you ever feared so I'll pretend I let go while you dance in the past without colors You'll be the one who ran away in nightmares Mine I let go so never look back you'll be the one I want to be I want to be It feels like someone switched the heart that used to be yours I'm trying hard to be someone so I'll pretend I let go while you dance in the past without colors You'll be the one who ran away in my nightmares I let go You said you'll never look back You'll be the one who ran away in my nightmares thanks to Gabe Baker for adding those words.
