UNKILLED is a new first-person zombie shooter from developers of such cool projects as Shadowgun and Dead Trigger, with which it has many similarities. The plot as such is not here. Again, scientists tested a new drug, again the experiment got out of control, and the virus broke out, simultaneously infecting everyone around. The player needs to clear the contaminated areas from the living dead, at the same time performing a variety of quests. In the final tasks of each chapter you need to fight with a big zombie boss. Control is done through joysticks on the screen left and right. The first is responsible for movement, the second - for the review. Shooting is carried out as automatically when aiming at the enemy, or with the help of a button of fire. There is a huge range of small arms from ultrasound to AK-47 and machine guns. Most weapons are bought for gold, which is very small, so it will have to pay with real money. All locations, enemies and weapons are drawn very well. There are also soft shadows from objects. The sound also did not pump up. The screams of the living dead and the sounds of gunshots create an atmosphere of zombie apocalypse. UNKILLED is a great genre successor dead Trigger, captivating the gameplay and interesting missions. UNKILLED - a fascinating shooter, which won many gaming awards. Shooter, which has great graphics, in which gamers will have to play in the image of a young fighter Joe, who needs to do the rescue of the metropolis, called the Big Apple, from the attack of the Horde of disgusting The city has become a real incubator of scary zombie creatures, such an incredible number of zombies did not appear in the history of mankind. First-class Wolf Pack commands were sent to New York, which aims to destroy all sorts of frightening evil spirits. Gamers will play the role of an elite soldier. Gather all your strength, because you are waiting for incredibly interesting, at the same hour terrible, heated atmosphere levels and a lot of time spent on the destruction of bloodthirsty living dead. Get rid of all sorts of dangers, eradicating hordes of walking corpses, freeing the city streets from insatiable monsters. Gamers will face in battle with countless army of terrible zombies, where they will be forced to help their teammates, as well as without help to fight with the survivors, huge leaders of the underworld. Buy new weapons, machine guns, snipers, shotguns. Free the once beautiful metropolis from the evil evil spirits that filled its streets. The city has turned into a real zombieland, save the rest of the survivors and try to find an antidote to the deadly virus. We just released a new 2.0.9 update full of improvements and bug fixes. Don't forget to let us know what you think of the update. Your MFG Infinite Ammunition Team No Recharge Can Attack From Afar Massive Damage Automatic Healing Anti-Ban Note: Use the OBB playstore Unbeatable MOD APK (Unlimited Ammunition) will bring you endless battles, a diverse arsenal and top-notch graphics. Table ContentAfter the launch of Dead Trigger in the mobile gaming market, Madfinger Games continue to release Unkilled - a sequel to Dead Trigger. This is a shooting game with graphics that are incredibly awesome available for iOS and Android platforms, this game promises to lead players to the biggest war between zombies and warrior. PlotThe Story Is Dead Trigger has a plot that you're lucky enough to survive and fight zombies, then Unbeaten will lead you to a guy named Joe - one of the members of the TASK GROUP WOLFPACK. In imaginary New York, where a zombie virus explodes violently, you can see that the streets are full of zombies. Widespread and mutant viruses make zombies a monstrous and vicious monster. So Joe's mission is to find and destroy the source of the pandemic, preventing it from spreading around the world. Familiar gameplayUnkilled is very similar to its previous part, from the first viewing, you control your character, moving on the virtual button on the screen. You can move your character in every corner easily once the zombies appear you just need to aim and your gun is automatically shooting. Unkilled has an incredible long storyline with over 100 missions, with many enemies that you need to fight like Sheriff, Dodger, Butcher, Dodger, ... In addition, there will be many side quests for you to be able to complete them. Not only does it have the soul of the shooter, Unkilled also combines elements of the role-playing genre shown in the quest system, aligning as well as collecting and collecting Weapons. Gun SystemsResponsors Are Huge Diverse, and you can choose from a variety of weapons such as rifles, AK, submachine guns, bows, knives and more. With the task of saving the world, you will be armed with very modern weapons. If you want to clear up the terrain, kill zombies quickly, you can activate the rocket to cause the zombies to explode, or even stop the time for you to easily handle. Excellent graphicsOu the uniqueness and notoriety of the Unbited is that the graphics are designed 3D with high resolution, from the smallest things such as trees, electric poles, wooden barrels ... to skyscrapers, street cars, zombies, ... even the reflection of sunlight is reflected in a very real and sharp way. The sound also brings a small part to the game, the appeal of the game with gunfire and zombie screams. MOD APK version of Dead TriggerMOD FeaturesUnlimited AmmoHigh DamageHigh Running SpeedAnti-BanGeneral scoreThe importance of this game is cherished, take care of everything carefully, but it still can not avoid some restrictions, such as sometimes some zombies seem to look very similar to another context in this new game, however, it doesn't really matter because when you shoot zombies, you mostly focus on destroying them Not too much Other drawback is that when playing sometimes there will be some annoying ads, it is also the weakness of most free games, not just Unkilled.But in general, Unkilled gives players some satisfaction, promising you an exciting and non-boring experience.
