Leo's Fortune is an attractive platformer for Android that will help you relax and plunge into a fantasy world full of mysteries. The main character - a fluffy Lion who longs to find the stolen gold. The game was warmly received by critics and ordinary players, thanks to the beautiful graphics and unique gameplay. The story begins with the fact that the furry animal learned about the loss of gold and immediately began to look for it, following in the footsteps of thieves. These footprints don't look like coins lost by a clumsy thief. Detective Leo, using his intuition and ingenuity, wanders through the expanses of the beautiful world, filled with treacherous traps and clever puzzles. Creating Leo's Fortune, the developers have done a good job and created a truly masterpiece of the game. This is only the visual part, where absolutely all the elements and details are drawn very qualitatively, creating unique landscapes of the magical world. Rejoice and connoisseurs of physical puzzles, as almost every level has elements with which the main character needs to interact (push, pinch, move). The Council has carefully considered the matter. The user's choice provides several options: classic with on-screen buttons, and modern without them. The second option makes it possible to comfortably transfer the game on gadgets with small screens. Leo Fortune is one of the few games that draws from the first minute. A simple plot allows you to fully enjoy the beautiful graphics, amazing voice and gameplay. 1337 - Senri LLC Android 4.0.3 - Version: 1.0.4 \$0 Leo's Fortune - As soon as Leopold was rich, but as soon as he got home, he noticed that his gold had been stolen and the thief had left traces in the form of coins. Now Leopold must return his wealth by collecting coins like bread crumbs in the forest, caves, jumping over traps and including mechanisms. Although it is a physical casual game, but the power along the way or require the player some understanding and wisdom, so the game also has a stronger element of the puzzle. - APKAward.com This 2D Meng Division game, and other 2D games is different. It's a sophisticated 3D simulation and hand-painted art, and the screen details deal with very smooth, so the players look very enjoyable. Levels of the game include jungles, mines, deserts, lava, snow and other diverse natural landscapes. The level of the scene is very clear, with 2D images showing different textures. It is clear to see fluttering fluttering in the air, the blurred background of the road and the distance displayed through the game's exquisite game screen. Players can get very good visual enjoyment. In the game took a virtual button and two gestures of control. It is worth noting that the virtual button in the work of hairball movements should not touch the button, depending on the movement of the hairball so very. The design allows players to save a lot of hearts. However, because the speed of the hairball is still relatively fast, you want to skillfully manipulate this horizontal version of the game, you still need to spend some effort. It's interesting to see hairballs in our hands that can grow bigger or fall faster in the game. In addition to its amusing appearance, its function is closely related to the thoughtful design of the game. The trigger and passing of many agencies need to change the shape of the hair ball, and the game has very strict limits on the evaluation passed. Gold coins, the number of deaths and the time needed, and smarter bodies and a beautiful landscape must rely on enough stars before they can. And the usual parkour game is different from that, as no props can help, skilled surgery and player wisdom where the secret is. Leo is the main character in the game without arms and legs, rolling a little hairball. In accordance with the game's settings, players must control Leo's blue fur ball, return the gold originally owned by him. After entering the game will have the first level of guidance, Leo needs to make his own body through the extension jump, slide his finger around to control the direction. The player does not find it difficult to perform tips to complete these contents, through obstacles, you can find the lost gold. The difficulty of the game lies in the fact that players can make the right answer to temporary obstacles. But it also takes some time to adjust to the physical inertia of the game, so although the operation is not easy and worth considering, but you want to master is not easy. Currently, according to the game map, the game has 19 levels and several cards. The map is an environment and is originally a forest. Although some modes of operation only need to be repeated during the game, it is difficult to increase the level after completing the first level of beginner training. Although various agencies during the game will have some graphic tips, but the just finished player is still unprepared. The game is not in the house and the game system is quite simple. Once you enter the game, there is only the ability to install and start the game, but the unified system has significant difficulties. There is no in-game purchase that is good for players, all players are in the same starting line, but depending on the level of performance and level of clearing the game in terms of, the game has significant difficulties, mostly in some complex and details players have to explain life before they can learn eventually how to work. However, the more life is explained, the lower the score. But because of this, the gameplay of the game and the challenge is higher, but also for players of rest and entertainment for some time. All in all, Leo Great both in terms of screen, gameplay, soundtrack and soundtrack. Powerful physics engine to ensure the smoothness of the game and the mystery of the gameplay also make the game full of playability. Although easy to use, but its full pass requirements are not simple. We recommend everyone to try it! Rating: (8 votes, 3.88/5) 2.80/5 Last version: 1.0.7.b28006 Leo Fortune - as the main character, we will be given a very cute ball of wool, which not only lives happily with his wife, but also incredibly rich in a variety of jewelry. However, one day our hero discovered that all his valuables have disappeared, and only the subtle path of gold goes deep into the forest. The hero wants to return his property, and for this work he goes straight in the footsteps of thieves, leaving his wife a letter that will return in the evening. Only the hero of Luck Leo did not expect that his unplanned trip will be so tiring, and by dinner he probably will not reproach. During the journey, our ward will meet new characters of the game world, who are also his distant relatives. He begins to guess that his jewelry can be hidden from any of these cunning brothers, so he will have to visit them along the path of scattered gold to find out all the details of what happened. Gameplay Gameplay is an unprecedented simplicity in detail. Once downloaded, you'll see that the main character's controls will be split into several parts. First, it is the movement of the gun in horizontal or vertical space, and the second function is responsible for increasing the size of our ward, so that the hero can fly to some kind of bridgehead or hide in case of danger. In general, to control the hero is quite difficult. Each adventure will be accompanied by a huge number of logical quests, missions and the most deadly traps. The sound here is fine. Our Lion will make funny sounds at every turn, and the journey through the locations will take place under dynamic soundtracks. Drawing game objects on level, with the change of the map, the weather will change. Our character will be able to fully appreciate all the benefits of living outdoors. The animation of the movements is good, with detailed research. All actions are realistic. The overall atmosphere of Leo's Fortune is simply unforgettable - you will find it very difficult to break away from the screen of your Android smartphone. The key features are a fairly lively and entertaining arcade game. The location is polished to the smallest detail. Smooth and chaotic animation of the main character.
