By building state-of-the-art data centers, organizations are investing in server virtualization, state-of-the-art storage applications, and cloud services. However, companies face new demands from end users, including access to data and applications at any time without downtime or data loss. Organizations are upgrading their data centers so they can: Providing IT services to strengthen security faster and control lower operating costs Solution: Veeam Availability Solution for Cisco UCS Veeam® and Cisco have collaborated to offer an integrated and pre-configured data accessibility solution based on cisco UCS and Veeam technology. The Veeam Availability solution for Cisco UCS is ready to be deployed and jointly tested by Veeam and Cisco. The Veeam Availability solution for Cisco UCS is a best-in-class turnkey solution that is the perfect answer for customers in need of an advanced, enterprise class, data availability for their virtual environments that are easy to order, deploy and manage, and that can easily expand over time as needs increase.
