Black and white photographic illustrations, 873pp, indices including index Latin and English drug names, the text is almost entirely Sanskrit with a small english, inscribed by Professor A.L. Basham front free endpaper, torn and insect-damaged dust shirt, covers marked. (When referring to this paragraph, please quote stockid 15353). Price: \$25.00 AU From India to USA This item: Chaukhambha Orientalia, 2007. This book is devoted to practical knowledge on the identification of medicinal plants both macroscopically and microscopically. In other parishes, this is a practical guide for Draviaguna students. Particular attention is paid to the need for basic knowledge on anatomy in botany. The main tissues of plants and their characteristics are described in a concise but effective way. Several illustrations are provided to avoid lengthy descriptions. This will make this student job friendly. The methods of coloring and preparing slides for microscopic study of different plants are given by suitable examples in accordance with the CCIM curriculum. This will be convenient for Dravyaguna teachers when transferring practical training to students. This work also relates to the preparation of herbariums and arboretum collections. Both a dry sample and a wet collection of samples of the DG Museum have been developed. Dos and donts for the DG Lab along with the necessary tips for students is a special attraction for students. The famacognost identification of some important medicinal plants of 16 plants was also included, as described in the CCIM curriculum. This will allow Ayurveda students to learn about simpler methods of identifying herbs through microscopic research. It can be concluded that this is the first work in English on Draviaguna, which is completed and which corresponds to the CCIM curriculum. Seller Inventory No. 100001908 1. From India to the U.S. About this point: Chaukhambha Orientalia. Condition: How new. This book focuses on important animal products and foodstuffs prescribed in the Ayurvedic material media. A modern perspective of appropriate medicines and food is also provided. The emphasis on the need for animal products, such as Casturi (musk) Path (civet), Agniara (amber), etc., is laid, while expressing the need for careful methods of collection without harming any animal. The scientific background of food classification in ancient Ayurvedic texts is confirmed by the support of modern literature. The nutritional value of these products is also provided on the basis of available information. This work also focuses on the indigenous methods of food processing in ancient India. The various puddings and their role in the management of health and disease are emphasized. Download Lagu Sheila at 7 dan. Pharmaceutical identification of some important plants (12 plants), as described in the CCIM curriculum. This will allow Ayurveda students to learn about simpler methods of identifying herbs. It could be that this is the first English work on Dravyaguna, which is in accordance with the CCIM curriculum. Seller Inventory No. 60662 2. From India to the U.S. About this item: Chowhamba Krishnadas Varanasi Academy, 2012. Condition: New. 5 or later edition. This work focuses on indigenous materia medica, pharmacology and therapy of Ayurveda, with a special reference to a drug derived from plant-based or herbal preparations belonging to Indian medical science. This is the first work of its kind, a full need and demand in India and abroad. Work in English is supported by Sanskrit text (with proper references/context). This work was presented in three parts, listing more than 500 drugs, forming three volumes: the first (A-J), the second (K-N) and the third (P-Y), brought out between 1998 and 2001. The work covers all relevant aspects of the drug, usually dealt with in the field of Dravyaguna Vijnana Indian Materia Medica. Being the first volume, its Title I is devoted to the classification (gan, warga, etc.) of drugs and the main section II fully covers individual drugs, which should continue in further volumes. A glossary of technical and medical terms related to drugs and Draviagun Weinan is given; and botanical and Sanskrit name indices were presented, along with other lists. Drug issues and topics like this are required in the subject course of Dravyaguna Vijnana according to the curriculum of the Central Council of Indian Medicine and other research needs have been kept in sight. From India to USA About this item: Chaukhamba Publications, New Delhi, India, 2014. Condition: New. Dust Jacket Condition: New. First edition. The book describes the exceptionally fundamental principles governing Ayurvedic pharmacology and faramapeutics. Understanding the basic principles will facilitate the discord of medicinal plants. Each concept is explained in detail by the relevant shlokas of classic links and relevant comments to make the book comprehensive. Tables, flowcharts make the subject clear and simple for students. Modern cores and reasoning stimulate and pave the way for new thinking. The text forms the title of the book Draviaguna's textbook, authored by Dr. Ai, structured in accordance with the revised CCIM curriculum for Draviaguna Vainana. The book describes the exceptionally fundamental principles governing Ayurvedic pharmacology and faramapeutics. Understanding the basic principles will facilitate the discord of medicinal plants. Each concept is explained in detail by the relevant shlokas of classic links and relevant comments to make the book comprehensive. Tables, flowcharts make the subject clear and simple for students. Modern cores and reasoning stimulate and pave for new thinking. The text forms a ready-made manufacturer on this issue not only Ayurvedic students, but also meets the needs of graduate academic researchers and practitioners. Seller Inventory No. 100559 8. \$37.99 \$28.49 Number: Dravyaguna is the main subject of Ayurveda, having eight wide branches. It can be called Materia Medica from Ayurveda. This series of the famous doctor and versatile scientist Ayurveda is the best in the English language. The first volume on the basics was published in 2002, and the second volume focuses on drugs. This is the first work published in English and written in accordance with the CCIM curriculum for the subject-Dravyaguna. This work discusses in detail 122 main herbs and then 250 other herbs with the introductory part. Herbs are provided with information directly from the Vedic period to the latter, including ongoing research. All references about the properties of herbs are provided as a foot note at the end of each grass. Disputes about separate grass are provided as a separate entity that provides explanations about botanical identity. Equal emphasis is given to classical literature, including the Sanskrit Handbook, botanical descriptions, therapeutic usefulness and scientific research. Dr. K C Chunekarji is kind enough to write a foreword to this work. All the literature currently available is consulted in the preparation of this work, making it more useful for both UG students and P G students. The index is located in accordance with the botanical sources of alphabets. Students, teachers and practitioners will enjoy exclusive information about several herbs presented in this paper. About the author: Dr. J L N Sastry hails from a traditional Ayurvedic family. He was born in Narasapurama (W G Dist., Andhra Pradesh) 6-07-1965). The author is the winner of two gold medals from Nagarjuna Univ. (AP) with merit shown during BAMS (1988). He presented several clinical and scientific papers at regional, national and international seminars. The author also gave radio talks and gave guest lectures at various prestigious institutes (both Ayurvedic and modern medicine). He has published a book 40 years of research on the air in P (on behalf of grda, Hyderabad). Use your information below: Help us improve our product lists.
