We welcome all comments on our site or spreadsheets on the Facebook comment box at the bottom of each page. Page 2 Welcome to our page 2 2-digit multiplication spreadsheets. We have a lot of worksheets on this page to help you practice the skills of multiplying 2 digit numbers by 1 or 2 digits. We have divided the worksheets on this page into two sections: 2 digits x 1-digit multiplication (3rd year) 2 digits x 2-digit multiplication (4th year) Each section ends with a few more delicate challenge sheets for more capable students. In each section, the leaves are carefully arranged with the easiest leaves first. These sheets are for Grade 3 students. Leaves 1 to 4 consist of 15 problems; leaves 5 and 6 consist of 20 problems. Leaves 1 and 2 involve multiplying 2-digit numbers by 2, 3, 4 or 5. Leaves 3 to 6 involve multiplying a 2-digit number by numbers to one digits and finding increasingly difficult products. These double-digit multiplication worksheets have been designed for more skilled students who need this extra challenge! These sheets are for Grade 4 students. Sheet 1 involves a 2-digit multiplication by 2 digits with numbers and answers up to 1000. Leaves 2 to 4 have 2-digit numbers that are more difficult to multiply and answers that are generally greater than 1000. These double-digit multiplication worksheets have been designed for more skilled students who need this extra challenge! We have more 2-digit multiplication spreadsheets, including 2-digit x 3 digit multiplication problems on this page. More double-digit multiplication worksheets (harder) Take a look at a few more of our spreadsheets similar to these. Need to create your own long or short multiplication worksheets quickly and easily?
