Products weighing more than 0,5 KG may cost more than shown (e.g. test equipment, machinery, &gt;500 ml of liquids, etc.). We deliver Australia-wide with these options: \$3 for Stamped Mail (typically 5-9 working days, not to follow, only available for selected small items) \$6.95 for Standard Post (typically 4-6 working days, tracked) for \$9.95 Express Post (typically 1-3 working days, tracked) Pickup - Free! Only in the Newcastle area, 2+ days can last in addition to the above information, only customers living in the Newcastle area (only after we have informed you of your order that your order is complete) Non-metro addresses in WA, NT, SA & TAS can take 2+ days. Air cannot supply some batteries (such as LiPo). Checkout express post and international methods are not an option if your cart has this type of battery. International orders - the following prices are for New Zealand and vary in other countries: \$11.49 pack and track (3+ days, tracked) \$16.50 for Express International (2-5 days, tracked) If you order a lot of gear, the mailing amount will increase depending on the weight of your order. Your physical address (here's a pdf with other key business information): Unit 18, 132 Garden Grove ParadeAdamstownNSW, 2289Australia Take a customer service page if you have other questions, such as whether we place purchase orders (yes!) or whether prices are included with GST (yes they are!). We're here to help-contact us to talk about the deal. The image is not irresponsible pour la couleur: The Weller WLC100 soldering station is designed for applications that require more control than a standard soldering gun provides, and has fast temperature heating with adjustable power control of up to 40 watts. It has a soldering pen safety holder, an air sensor power switch and an iron-coated copper soldering tip. This soldering command is intelligently designed to minimize user fatigue. Thank you, we'll look into it. 1/1 found this useful: I'm not a big fan of this soldering iron mainly because of the seemingly incredibly uneven heat distribution of the tip. Even after the swerever and cleaning, the tip appears to be very temperamental, which can be frustrating when drinking several parts. It is possible that it is a user error, but I have had no problems with soldering iron at work. © 2020 Walmart Stores, Inc. Inc.
