Help - Google Play: - StankoMashStroy - Industrialist - Factory Development Strategy - Help Related Games - Resources - GPS MMO Game - Virtual Truck Manager - Tycoon Cargo Company - Oil Tycoon: Gas Idle Factory. Life Simulator Miner - Tap Tap Builder - Crafty Town - Kingdom BuilderDown BLOCK MOD APKDirect SSL By the way, I will introduce you to the new game and will be unique for the current strategy of development of StankoMashStroy on CH Play - Industrialist - Factory. Cross-content is the manufacturing process in a real industrial plant. Coming into the simulation field and tactical games, the manufacturer tried to run the game to stimulate your business thinking and send strange game content, and have the greatest impact. Try the industrialist strategy once. Managing a large business With a production-oriented strategic mindset to create a successful production model with personnel maneuvering, combined with the type of equipment - the machine you self-purchase in a cent of coins. Play through each stage. To realize the thinking of the game, the games, You could say that it is still new and not so many achievements that StankoMashStroy has created the game is not difficult and even enough for you to be able to own. It's easy to tinker. In the game Industrialist you will become a manager with the main task of coordinating the workforce and equipment to ensure that the plant works well and that the scale becomes more open. Wider. You will find the equipment - the necessary equipment and buy it from us in the game. You will have yourself a full staff position to help in producing the best possible performance. In addition, you should try to upgrade the type of equipment - the equipment is further to make the plant more and more product sizes and gradually expand more objects. The number of establishments you can open will be unlimited, and of course it will satisfy your ambitions to grow. Make sure the plant grows with all your experience and knowledge. Business strategy with its novelty in regards to content and gameplay, industrialist - Factory development strategy also has some interesting features that bring you a lot of conditions to help you win the game more perfectly. For example, you will head the plant and run everything that belongs to the production line, such as dozens of machines (mills, cameras, boring machines, conveyors, etc.). The system of employees in specific specialties such as workers, maintenance managers or machine builders, etc. is also a game completely offline, so you can manage the factory anywhere, even if your mobile device has no network data or where you stand unable to catch Wi-Fi. Simple graphics Take a bright green color to master a simple animation, easy to see will stimulate the curiosity of the player. Characters in the game distinguish the appropriate positions when observing the color and style of design ... Graphics deemed suitable for a tactical player requires an opening incentive, while easy to track things change to give the most appropriate Sum up strategy Coming to the APK MOD industrialist, you will have the opportunity to become a real business manager that is big enough to be in business on your own. Create an unforgettable success that finds your strategic thinking and claims that you are the most respected and business entrepreneur. Look around and do everything you imagined before and experienced the manufacturing industry! Now you are ready to download The Industrialist for free.
